At EV Automotive Pty Limited ABN 82 630 179 761 (EV-A), the distributor of Skywell Corporation products across Oceania, we recognise the importance of your privacy and appreciate that your personal information is very important to you. We are committed to complying with our obligations under the Privacy Act 1988 (Cmwth), particularly the Australian Privacy Principles (APPs). EV-A collects personal information about individuals for various purposes to enable us to carry out business functions. The latest version of our Privacy Policy, and our Privacy Collection Statement, is available on our website at www.ev-a.com.au.

If you have any concerns or questions about how your personal information is managed and used by us or that an APP or the Privacy laws have been breached, please feel free to contact us.

EV Automotive takes its compliance with privacy obligations seriously. We will ensure that your complaint is registered with us and request that you provide the complaint in writing. The Privacy Officer will ensure that the complaint is referred to the right people within the organisation to investigate and respond to the complaint. Any response or action will be notified to you as soon as practicable.

The contact details of the Privacy Officer are as follows:

5 year 160,000 kilometre vehicle warranty.

8 year 200,000 kilometre HV battery warranty

SKYWELL motor vehicles are manufactured using high-quality materials and progressive engineering technology in conjunction with advanced quality control techniques.

For 5 Years or 160,000km, excluding the HV Battery which has an 8 year 200,000km warranty, following the date of first registration or delivery of the vehicle to the original retail owner, whichever comes first, SKYWELL warrants that the vehicle originally manufactured shall be free from defects arising in workmanship or materials of the mechanical and electrical components of the vehicle subject to the conditions outlined under “General Exemptions.”

Consumers will have rights and remedies in addition to the warranty provided in this booklet. This warranty should not be read as excluding, restricting or modifying the rights and remedies of consumers under statutes, such as the Competition and Consumer Act 2010.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and if the failure does not amount to a major failure.

The warranty periods indicate that a vehicle warranty is valid until the expiry of the stated period commencing from the date the vehicle was first registered, or the date upon which the vehicle travels the stated kilometres, whichever occurs first.

Model	Warranty							
	Purpose of Use		Corrosion	Paint		Battery		Audio / AVN

New vehicle warranty scope.

To the extent allowable by law, subject to various period limitations any component forming part of the original vehicle specification manufactured or supplied by SKYWELL (except tyres and non genuine accessories) which is found to be defective as a result of poor workmanship or materials during normal usage of the vehicle will, at the discretion of SKYWELL, be repaired or replaced, at no cost to the vehicle owner when repaired by an authorised SKYWELL Service Centre.

- Tyres are not covered by SKYWELL new vehicle warranty but are covered by the express warranties of their respective manufacturers or suppliers.
- Non genuine parts and accessories are not covered by SKYWELL new vehicle warranty but are covered by the express warranties of their respective manufactures or suppliers.

Owner responsibility.

To ensure the validity of this warranty, the owner must:

- Ensure that all services are carried out as per the scheduled maintenance and service recommendations, and the service history coupons stamped by a suitably qualified vehicle repairer or your authorised SKYWELL Service Centre.
- Keep detailed service invoices for review whenever requested.
- Present this vehicle Service History book to the authorised SKYWELL Service Centre whenever requesting warranty service.

- Deliver the vehicle to an authorised SKYWELL Service Centre for all warranty repairs.

Vehicle recovery.

If a component warranted by SKYWELL fails as a result of poor workmanship or materials, rendering the vehicle immobile or undriveable, cost of recovery to the nearest authorised SKYWELL Service Centre is generally covered under warranty. However, prior authorisation must be obtained from the repairing SKYWELL Service Centre

Anti perforation / corrosion.

24 months / 100,000 km*.

Perforation is identified as corrosion through the body panel (from inside to outside) of the original SKYWELL body sheet metal due to defects in material or factory workmanship.

This excludes surface corrosion that may result from insufficient or improper maintenance or care.

Exterior paint durability and finish.

24 months / 100,000 km*.

Excludes defects defined as scaling, blistering, scab, and fading that may result from insufficient or improper maintenance or care.

Exterior paint application defects.

12 months / 100,000 km*.

Paint application defects will be considered to be overspray, low gloss, mismatch, mottling, cloudy, runs, fisheye, pinholes, slow drying, thin paint, waving, tape mark, touch mark, polishing/sanding mark, touch up, dust or dirt in the paint.

Note: Warranty does not apply for paint defects arising from stone or similar chipping, tree sap, hail damage, windstorm damage, chemical/ industrial fallout, salt spray, bird/animal droppings, or any other environmental condition.

Audio / satellite navigation head unit.

12 months / 100,000 km*.

Covering defects in material and workmanship.

Electric vehicles.

Covering defects in material and workmanship for the original vehicle battery.

12v Auxiliary battery

12 months / 40,000 km*.

High-Voltage (HV) battery. (>70% capacity)

96 months / 200,000 km*.

Excludes: Defects resulting from incorrect decommissioning of the high-voltage battery system. Defects resulting from incorrect battery charging

Keyless entry remote battery.

6 months / unlimited km.

Limitation of liability.

Subject to that allowable by law, the customer will bear the expense of claiming the warranty.

SKYWELL shall not be liable for any consequential loss, indirect loss, economic loss, loss of revenue or special loss which are not reasonably foreseeable, that may arise from any defect of a vehicle.

*Whichever occurs first.

The warranty shall not apply to the following:

1. Defects judged by SKYWELL or their representative as being attributable to the failure to adhere to the requirement regarding the frequency of periodic maintenance service as outlined in the Owner's Manual; or this Service History; or failure to have such periodic maintenance performed by a suitably qualified motor vehicle repairer.
2. Defects which are caused by or attributable to negligent or careless driving, accident or improper use of the vehicle.
3. Defects which are caused by or attributable to the use of non genuine SKYWELL parts or accessories or the use of lubricants, fluids or fuels which are not approved for use in the vehicle by SKYWELL.
4. Defects which are caused by or attributable to modifications not carried out by or at the direction of SKYWELL.
5. Deterioration, staining or corrosion of plated parts, paint coatings, rubber or plastic components or soft trim which occur due to normal exposure, general wear and tear and usage.
6. Defects caused from improper workmanship or not carrying out maintenance or repairs in the correct manner recommended by the manufacturer.
7. The replacement of consumable components normally replaced or repaired in the process of routine maintenance servicing, which include but are not limited to: lubricants, fluids, coolant inhibitor/anti freeze, refrigerant, filters and filter elements, fuses, gaskets and seals, shim/packing, batteries, brake friction linings, brake disc rotors - including machining, light bulbs, wiper blades and arms, all hoses and attaching devices.
8. The breakage or scratching of glass occurring after delivery of the vehicle to the owner.
9. Defects arising from the fitting of any part other than in accordance with the manufacturer's recommendation or specification by other than an authorised SKYWELL Service Centre.
10. Defects arising from the testing, maintenance or repair of parts (other than by an authorised SKYWELL Service Centre).
11. Defects arising where the vehicle has been used for racing, rallying, competition or speed/endurance trials of any kind.
12. Defects resulting from improper repair or maintenance.

13. Alleged defects which are considered by SKYWELL or their representative not to be the result of manufacturing or workmanship defects and/or are recognised as not affecting the quality or function of the vehicle and/or alleged defects which occur under unusual operating conditions and/or normal wear and tear of the components of the vehicle. Such alleged defects include but are not limited to:

- a. Noises or vibrations of low amplitude or frequency that are considered to be representative of the vehicle's characteristics.
- b. Slight oozing of fluids from seals and/or gaskets which cause no material decrease in the level of such fluids.
- c. Panel gaps which SKYWELL considers to be representative of manufacturers design intent
- d. Appearance defects that are not apparent unless magnified by special means or considered by SKYWELL to be of a minor cosmetic nature and do not affect the general appearance or quality of the vehicle or, which are representative of the standard of finish accepted by the manufacturer
- e. Corrosion or other damage including paint coat damage resulting from accident, misuse, stone chipping, gravel or other form of impact, discolouration, fading or deterioration resulting from exposure to or contact with tree sap, bird droppings, insects, tar, industrial fallout/pollution, contamination by lubricants or other fluids or extraneous cause or defects resulting from poor repair to, or failure to have repaired, body damage caused by the above or by any other cause.

- f. Corrosion due to incorrect maintenance of the cooling system, or the brakes hydraulic system.
- g. Drive motors and satellite navigation systems which have a limited service life expectancy.
- h. Wheel rims as a result of impact damage

Warranty transfer – change of ownership details.

The new vehicle warranty may be transferred with the vehicle to a new owner.

In the event of a change of ownership or a change to owner details, updates can be made on-line via our website www.ev-a.com.au or at an authorised SKYWELL Service Centre. Under no circumstances can this policy be transferred to another vehicle. This warranty is cancelled if the vehicle is written off or disposed of by an insurer.

Vehicle usage history.

The entitlement to the kilometre warranty offered by SKYWELL depends on vehicle usage history. It will be the purchaser's responsibility to obtain and provide SKYWELL with information and records such as details on how the previous owner/s used the vehicle, details on how the vehicle is currently used, the vehicle's service history and other vehicle records. This information or those records may be required by SKYWELL to validate warranty status when requesting warranty repairs. (Refer to Owner Responsibility on Page 8).

It is the responsibility of the owner to bring to the attention of the SKYWELL Service Centre any matters which give cause for complaint except for repair or service work carried out by other than a SKYWELL Service Centre and to give the SKYWELL Service Centre the opportunity to rectify such matters. In the unlikely event of a situation arising which the owner believes has not been attended to in a professional manner, the following suggestions are made to assist with resolving the matter.

1. We recommend that matters directly involving your preferred SKYWELL Service Centre to be raised with the Centres Service Manager.
2. In the unlikely event that a satisfactory response is not obtained from the Centres Service Manager, written contact should be established with:

EV Automotive Pty Ltd

PO Box 395

Hamilton Central

QLD 4007

Website: www.ev-a.com.au

Email: service@evautomotive.com.au

To ensure the continued reliability and safety of the vehicle, certain routine maintenance service operations are required at specific kilometre or time intervals as follows:

EC-11

E-CARGO & E-CREW.

- Routine scheduled service
 - every 15,000km or 12 months* .
- Optional intermediate service
 - every 7,500km or 6 months* (refer to page 16 for details)

It is the vehicle owner's responsibility to ensure that the maintenance schedules shown in the Owner's Manual are adhered to. Lubrication and fluid specification guides can be found in the Owner's Manual.

The new vehicle warranty may be invalidated if the routine maintenance schedule operations are not performed in line with the requirements outlined.

Any suitably qualified motor vehicle repairer may carry out the routine scheduled maintenance, not just a SKYWELL Service Centre. However, for the warranty to remain valid, a motor vehicle repairer must comply with the requirements of the warranty and issue detailed, auditable invoice documentation to substantiate that the scheduled service maintenance was carried out as per the manufacturer's recommendation.

All warranty claims must be made through an authorised SKYWELL Service Centre. An authorised SKYWELL Service Centre must carry out all warranty work.

Please check our website at www.ev-a.com.au to locate your nearest authorised SKYWELL Service Centre.

In addition, defects caused by or attributed to the use of non genuine parts or accessories may affect the warranty cover.

Note

The inspection and testing of specific high voltage electronic components, vehicle management, and transmission control systems require specialised electronic equipment specifically designed for SKYWELL vehicles. The use of general-purpose electrical test equipment may damage the electronic control unit microprocessors.

Tyre and wheel replacement

Your vehicle is equipped with tyres and wheels designed to provide for safe ride and handling capabilities.

When replacing the tyres and wheels, be sure to equip all four with the tyre and wheel of the same size, type, tread, brand and load-carrying capacity. Do not use a size and type of tyre and wheel that is different from the one originally installed on your vehicle.

Using tyres and wheels of a different size can cause irregular operation of the ABS (Anti-lock Brake System) and overheating of the Drive mechanism resulting in premature failure of drivetrain components.

It is therefore best to replace all four tyres at the same time however, if that is not possible or necessary, then replace the two front or the two rear tyres as a matching pair without disregarding the above recommendations.

*Whichever occurs first.

Optional intermediate service

- vehicles driven under demanding conditions.

Not all vehicles are operated in the same way. Some driving conditions place more stress and strain on your vehicle than other conditions.

Certain maintenance procedures must be performed more frequently on vehicles normally used under high usage or demanding driving conditions. This will ensure your SKYWELL vehicle maintains peak operating performance.

Your authorised SKYWELL Service Centre can advise you on the benefits of an optional intermediate service for your vehicle's operating conditions. You are responsible for properly maintaining your SKYWELL vehicle in accordance with the vehicle maintenance requirements described in your Owner's Manual.

The following conditions should be construed as demanding driving conditions:

Driving conditions a.

Driving in dusty, muddy, rough, gravelled, salt covered roads.
Driving in areas containing salt or very cold weather.
Driving in sandy areas.

Driving conditions b.

Majority time driving in heavy traffic area in hot weather above 32°C.
Driving in mountainous areas repeatedly.
Continuous high speed driving.

The following intermediate service is optional and recommended for vehicles driven in demanding conditions.

I = Inspect and after inspection, Clean, Adjust, Repair, Lube or Replace if Necessary.

Maintenance item.	Operation.	Intervals. Every 7,500 km / 6 months*.
Air cleaner element.	I	Inspect in accordance to above maintenance interval.
Steering gear rack, linkages and boots.	I	
Front suspension ball joints.	I	
Disc brakes and pads, calipers and rotors.	I	
Parking brake.	I	
Driveshaft and boots.	I	

* Whichever occurs first.

Additional maintenance is recommended for the specific driving conditions outlined below:

	Driving Condition.	Notes.
Differential oil.	b	Inspect more frequently.
Climate control air filter.	a	Inspect more frequently according to driving conditions.

Further to routine scheduled and optional intermediate maintenance, you should carry out regular checks of your vehicle's brake fluid and coolant (together with other fluids listed in your 'Owner's Manual'). This is preventative maintenance, and allows you to get to know your SKYWELL vehicle.

To maintain your vehicle in a safe and efficient condition, the following is a list of regular checks that should be performed each time you drive your SKYWELL or while recharging:

Under Bonnet compartment.

The following should be checked regularly:

- Brake fluid level
- Coolant level
- Coolant hose condition
- Windshield washer fluid level
- Fluid leaks on or below components
- 12V Battery condition

Vehicle exterior.

The following should be checked monthly:

- Wheel condition and wheel nut torque
- Tyre pressures and condition (including spare)
- Lamp condition and operation
- Windshield glass condition
- Wiper blade condition
- Paint condition and body corrosion
- Fluid leaks
- Door and bonnet lock operation

Vehicle interior.

The following should be checked each time the vehicle is driven:

- Operation of all lights
- Windshield wiper operation
- Horn operation
- Defroster, heating & air conditioning
- Steering operation and condition
- Mirror alignment, condition and operation
- Accelerator pedal operation
- Brake and brake pedal operation, including park brake
- Automatic transmission and park mechanism operation
- Seat control, condition and operation
- Sun visor operation
- Seat belt condition and operation

Pre delivery inspection.

This is to certify that the specified pre delivery inspection has been completed.
