Born Electric. Built For Business.

THE ELECTRIC TRUCK REDEFINED

The Farizon H9E represents the future of urban logistics with powerful electric performance and practical versatility. Engineered specifically as a commercial electric truck from the chassis up, the H9E delivers exceptional torque, outstanding range, and zero emissions while maintaining the rugged reliability businesses demand from their delivery vehicles.

A NEW STANDARD IN ELECTRIC TRUCKS

With its ground-up electric truck architecture, powerful drivetrain options, and adaptable chassis configurations, the H9E transforms urban logistics operations with substantial cost savings and enhanced operational efficiency. Businesses benefit from the powerful combination of impressive payload capacity, exceptional torque, and zero emissions.

Available in multiple GVW ratings from 4.5T to 8T, with various wheelbase options and body configurations to match your exact business requirements, the H9E platform provides the perfect foundation for your logistics needs.

DESIGNED FOR DRIVER COMFORT & PRODUCTIVITY

Premium fabric seats

12" LCD Infotainment Screen

Step into the Farizon H9E's thoughtfully designed interior where efficiency meets comfort. The cabin offers premium features including ergonomic fabric seats that support long working shifts. Stay connected with the 12-inch floating touchscreen that puts vehicle controls and navigation at your fingertips, while multiple storage solutions ensure everything has its place.

Some equipment featured on vehicles in this brochure may not be available or may be optional. To the extent permitted by law, Jameel Mobility shall not be liable to any person as a result of reliance on the content of the brochure. Always check with your local Farizon Dealer for the latest product specifications. Information in this brochure is current as at 03/04/2025.

¹ Farizon Auto offers a warranty of 5 years or 200,000 kilometers (whichever occurs first) on all new Farizon vehicles. The high-voltage battery is covered by an 8-year or 200,000 kilometer warranty (whichever occurs first). Complementary roadside assistance is included for 5 years from the date of first registration. For full T&Cs see farizonauto.au.

² Values are derived from WLTP testing, which uses standardised laboratory conditions to measure energy consumption, range and emissions for vehicles. While WLTP is designed to better reflect real-world driving conditions, actual performance will vary based on multiple factors including driving habits, journey characteristics, vehicle specifications, battery health, use of features (including climate control), weather conditions and ambient temperature.
