

MIFA 9

PEOPLE MOVER

LDV is a division of SAIC Motor, which is a Fortune Global 500 company and the 8th largest automotive company in the world¹. SAIC Motor sells over 5 million vehicles annually and has joint ventures with Volkswagen and General Motors. In 2009 SAIC Motor acquired the commercial vehicles division of British Motor Corporation which included LDV.

1. 2021 Fortune Global 500.

LDV MIFA9 ELECTRIC PEOPLE MOVER – TECHNICAL SPECIFICATIONS

LDV MIFA9 ELECTRIC PEOPLE MOVER

MODE / EXECUTIVE / LUXE

Engine

Type	Permanent magnet synchronous motor
Drive	Front Wheel Drive
Maximum Power (kW)	180kW
Maximum Torque (Nm)	350Nm
Maximum Speed (km/h)	180
Driving Modes	Power, Normal & Eco

Battery

Type	Lithium-ion
Capacity	90kWh
Maximum Range (km) (WLTP) ²	440 / 435 / 430

On Board AC Charger

Type	Type 2
Maximum Charging Capacity (kW)	11
Standard Charging Time (5-100%) at maximum AC Charge Speed 11kW – Three Phase (hours) ³	8.5

On Board DC Charger

Charging Capacity (kW)	120kW
Standard Charging Time (30-80%) ³	36 min (approx.)

On Board Emergency Domestic Charger

Type	Type 2
Output Capacity	2kW

Disclaimers:

- Range figure is based on WLTP (Worldwide Harmonized Light Vehicle Test Procedure) static laboratory combined average city and highway cycle test. Figures stated for the purposes of comparison amongst vehicles tested to the same technical procedures only. Actual real world driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. The rated range displayed on the Energy Consumption label affixed to the car is calculated according to the ADR 81/02 NEDC based standard as defined by UNECE R101/01 (rather than the WLTP), so the range displayed on the label is different to that shown here.
- Charging times may vary based on factors including but not limited to charger type and condition, battery temperature, electricity supply, auxiliary consumables (e.g. air-conditioning) and environmental conditions. The time taken for successive rapid charging can take longer if the battery temperature activates the battery safeguarding technology.

MODE / EXECUTIVE / LUXE

Steering, Brakes and Suspension

Steering	Electric Power Steering
Front / Rear Suspension	Macpherson Independent / Multi-Link
Front / Rear Brakes	Disc / Disc

Disclaimers:

- Safety technologies may not operate optimally under all driving conditions, operation and effectiveness depends on many factors. Driver is responsible for safe and attentive driving. Safety technologies are not a substitute for the driver's control over the vehicle. See owner's manual for complete details.
- Payload and tare weight figures are based on vehicle certification. It is the driver's responsibility to ensure: weight of fully loaded vehicles do not exceed GVM; front and rear axle load limits are not individually exceeded; the combined weight of the fully loaded vehicle (including tow ball download when towing) and trailer does not exceed the GCM; compliance to State and Territory towing regulations. Payload is the combined value of occupants, luggage, cargo, added options, accessories and tow ball download (when towing). Tare weight includes the vehicle with a full tank of fuel and all standard equipment excluding occupants. Additional weights of optional features, occupants, luggage, cargo, accessories and tow ball download (when towing) must be taken into account when calculating payload and tare weight. When a genuine tow bar and wiring are fitted, blind spot monitoring will be disabled.
- Leather accented features and upholstery contain some synthetic materials.
