

THE MINI COOPER 3-DOOR.

Hi,

If you want to own a true icon, I'm your MINI.

I'm the original. The MINI Cooper 3-Door. The one with the deepest roots in the family tree. The one fun has followed the longest.

My shape and character are classic MINI. While my colours, features and engine types set me apart.

So make me yours. Decide the package, colours, wheels and interiors you want. Then let's show the road how fun is done.

Terms and Conditions: Fuel consumption is determined in accordance with the ECE driving cycle (93/116/EC) made up of approximately one third urban traffic and two thirds extra-urban driving (based on the distance covered). CO2 emissions are measured in addition to fuel consumption. All data is presented based on a vehicle of this model with standard equipment as tested for the German market. Where those vehicles are available in a right hand drive variant, they can be specially ordered from the factory by Australian customers. Figures given for unladen weight in kg is based on vehicle with standard equipment and includes a 90 per cent tank filling, 68 kg allowance for the driver and 7 kg allowance for luggage. Optional equipment may increase this figure. The performance and fuel consumption rates listed are based on the use of RON 98 fuel. Actual figures for fuel consumption and emissions will depend on many factors including traffic conditions, driving habits, prevailing conditions and your vehicle's actual equipment, condition and use. Test figures are unlikely to be achieved in real world driving conditions and should only be used for comparing one vehicle with another. Further information about the official fuel consumption and the official specific CO2 emissions for new passenger vehicles can be found in the 'New Passenger Vehicle Fuel Consumption and CO2 Emission Guidelines', at <http://www.dat.de/en/offers/publications/guideline-for-fuel-consumption.html>.
