

SKODA

Fabia

## Make your choice your voice

Fab town. Urban legend. City slicker. This car may have many names. But there is nothing that defines the Škoda Fabia more than the person driving it. Fresh, distinctive and eager to impress, this car is equally at home next to the sidewalk or catwalk. Numerous details shape the car's raring-to-go attitude. While the bold wheels have the crowds staring at its feet, it's the responsive engine, LED lights, advanced safety, connectivity and ample space that earn all the compliments.

Being comfortable while being yourself has never been easier. The Fabia isn't just the do-it-all city car. It's a classic original that's been remixed to urban perfection.

# Exterior Design

## Small car. Big drive.

The dynamic beauty of the Fabia invites you for the drive of your life. The compact dimensions make it a perfect companion for everyday living. The classic elegance merges with the hatchback practicality. A car for every day and every mood.

### Dynamic functionality

At the first glance, the dynamic looks are what intrigues you. The sharp tornado line from the chiselled headlights to the dynamic taillights. The choice of intricately designed wheels in sizes up to 18". The chrome and gloss black detailing. Then, you'll appreciate the way Fabia fits more space than ever before onto a still compact footprint, making it both comfortable on long trips and easy to scoot around town.

Overseas model shown

#### **The look of confidence**

With wider grille and sleek, sharp headlights, the Fabia emphasises its wider, lower, more dynamic stance. A big car in a compact package. Whether you choose the elegant bright trim or the sporty look of gloss black, the Fabia will stand out anywhere – and fit into the finest company. It is nimble but helps you think and live big.

#### **Panoramic roof**

The dynamic exterior design can be enhanced by the optional panoramic glass roof, which stretches all the way from the windscreen to the roof spoiler.

#### **Stylish from roof to bumper**

The extended roof spoiler and vertical finlets that border the rear window complete the dynamic look of the car. The Škoda lettering across the back exudes modern elegance. The black bumper insert gives the rear a lighter, more sporty appearance.

#### **Headlights and fog lights**

The headlights with crystalline decorative elements feature LED in all their versions. The basic LED headlights offer LED daytime running lights, LED dipped beam and full beam, and LED turn indicators. The Monte Carlo's LED headlights come with LED side lights (designed for turn lighting and supporting the dipped beam at lower speeds) and LED corner function. The front fog lights are located in a well-defined space in the lower part of the bumper. Besides their practical function, they also play a design role.

#### **LED Tail lights**

The Fabia features distinctive horizontally designed full LED tail lights.

# Interior Design

### Ambient lighting

Make your space cosier and more comfortable with interior LED lights. They include ambient lighting running along the dashboard (that can be switched between white and red), and the centre console lighting, door handle lighting, and front and rear reading lights.

## Getting out is optional

Stepping into the car feels like stepping up in class. The Fabia offers a spacious interior that features high-quality materials and unique possibilities in terms of design, technology and comfort. When inside, you'll never have to step out of your comfort zone.

### Virtual Cockpit

With its 10" display, the optional digital instrument panel (Virtual Cockpit) can offer you on-board computer specifications in combination with other necessary information for your trip, such as navigation. You can choose from five layouts (Classic view shown) controlled via the View button on the multifunctional steering wheel.

### Digital Display

As a part of the standard equipment, the Fabia is now fitted with the 8" Digital dash which replaces the traditional instrument cluster. It serves all the necessary information in a easy to digest, modern way with a possibility of switching between several modes.

#### **Roominess**

The knee and headroom in the rear raises the Fabia to the level of high-class cars.

#### **Decorative elements**

The Fabia dashboard, decorated with chrome details, such as the air ventilation and instrument panel cluster frames, combines aesthetics with perfect functionality.

Simply  
Clever

## Smart isn't just for phones

The Fabia comes equipped with a host of ideas. As the needs of the driver always come first, we came up with solutions that make everyday journeys effortless and the car a joy to drive.

### Front compartment

In the centre console compartment, which features two USB-C ports, you will also find a pencil holder and universal clip. It can be used for cables and other small items.

### Removable cupholder

For your drinks, a dual cupholder with Easy Open function can be placed on the centre console at the driver's and passenger's fingertips.

### USB in the roof panel

Located in the roof panel at the rear-view mirror, this USB-C port is ideal for charging devices mounted on the windscreen.

### Umbrella compartment

An ingenious compartment with original Škoda umbrella is fitted inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

# Comfort And Space

## Travel comfort class

The best tech tweaks are those that make your life easier without you even noticing them. We followed this motto when we designed the Fabia. Everything from the smallest design details to practical function is conceived to make your journey truly comfortable.

### Retractable mirrors

The automatically retractable external side-view mirrors available in the Monte Carlo fold in when the car is locked. This protects the mirrors from damage, especially when parking in a confined space, and you also have visual confirmation that you have locked your car. The driver's side mirror also features a dimming function that prevents glare from the car behind you.

### KESY

You will quickly get used to the convenience of KESY (the Keyless Entry, Start and exit SYstem), which allows you to lock/unlock your car and start the ignition/switch off the engine without inserting the key.

#### Heated steering wheel

When the driver feels comfortable, then driving is safer. That's why the equipment range for the Fabia Monte Carlo includes a heated steering wheel. The heating function can be controlled via the button on the steering wheel or via the infotainment. Choose a heating level that suits you and enjoy the journey in comfort.

#### Heated windscreen

With this handy optional function, you'll never have to scrape the windscreen again. And it's not just winter when it can be used. The windscreen heating, which is controlled via the infotainment, will quickly clear frost or condensation.

#### **Phone box and USB**

The phone box, suitable for large display devices, wirelessly charges your device while driving. Two USB-C 45W data ports located above the phone box will allow you to easily connect and pair your devices via cables to the infotainment system.

#### **Jumbo box and drink holders**

Safely store any small electronic devices in the Jumbo box in the front armrest. For your drinks, there are cupholders with Easy Open function on the centre console.

### Panoramic view

Enjoy the feeling of freedom and more space above your head with the optional panoramic roof, made entirely of special tinted glass and guaranteeing the highest safety standard as well as thermal climate comfort.

### LED reading lights

Thanks to LED technology, rear passengers can use these powerful lamps without disturbing the driver. Interior LED reading lights front and rear come as part of the LED ambient package.

### Vents and USB in the rear

The vents located on the rear side of the front armrest allow rear passengers to easily adjust the airflow to suit them. Here you can also find two USB-C 45W ports enabling mobile phone charging.

## A home for everything

It's always better to have your things in order. Whether it's at your home or in your car. That can be easily achieved in the Fabia. Thanks to its generous luggage capacity and a host of simply clever details, everything will stay in the right place.

### Net programme

The set, including three nets, will reliably prevent your things from moving around. Plus, you will clearly see where you put everything.

### Multifunctional pocket

Use the available space in the boot cleverly. A multifunctional pocket designed to stow clothing items and long, lightweight objects will come in handy.

#### **Capacity**

The luggage compartment of the Fabia with a basic volume of 380 litres can be extended up to 1,190 litres by folding down the rear seats.

#### **Flexible compartment**

The flexible compartment fixed in the side panelling grooves is ideal for carrying flowers, small toys, shopping, etc. You can always adjust the size of the compartment to suit your current needs. When not in use, it can simply be folded away.

Safety

## Additional experts on board

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

### Front Assist

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

### Adaptive Cruise Control

Using a radar device in the front grille, in addition to its basic cruise control function, Adaptive Cruise Control maintains a safe distance from vehicles in front of you. This system operates up to speeds of 210 km/h.

### Lane Assist

Lane assist can tell you when you stray from the lane unintentionally. The lane assist system works in conjunction with a multipurpose camera to recognise lane markings on the road, including yellow lines during roadworks, traffic cones and other roadside or lane boarders.

### Driver Alert

Driver alert reduces the risk of fatigue-induced emergency. By monitoring driver behaviour, the system assesses the degree of driver fatigue and, if necessary, warns of the need for a rest and break in the journey.

### Crew Protect Assist

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts. The new state-of-the-art version of the system can use radar sensors both in front and in the rear...

# Monte Carlo

## Not to be missed on any road

The Fabia model always radiates strength and confidence. The Fabia Monte Carlo design with specific black features results in an even more emotional expression and greater dynamics.

### Stylish rear

The rear features glossy black elements such as inscriptions on the 5th door (Škoda, model name) and diffuser. The car's dynamic appearance is further accentuated by SunSet tinted windows, which also protect the interior from overheating in sunny weather.

### Black front and side

The glossy black features such as the front grille frame, add-on part on the front bumper spoiler, door sill covers, and external side-view mirror caps are always accompanied by black brushed alloy wheels (17" Procyon shown).

## Enter an exclusive club

Stepping inside the Fabia Monte Carlo makes you feel exceptional. The interior, decorated with red metallic details and Carbon décor, confidently parades its sporty style without losing any of its practicality. Plenty of attractive equipment for your comfort and safety, including sports steering wheel, instrument panel in Monte Carlo design (optional Virtual Cockpit shown), LED ambient lighting, and advanced assistance systems, also make this car fun to drive.

#### Comfort and style

The interior features front sports seats with integrated headrests, which provides maximum driving comfort. The specific carbon decor upholstery in black with red and grey stripes is complemented by the black ceiling. The car also comes with front door sill strips with Fabia inscription (not shown).

#### Pedal covers

The stylish interior is complemented by sports pedal covers in alloy design. The rubber facets on the pedals prevent your shoes from slipping.

## Monte Carlo

The standard equipment of the Monte Carlo version includes unique sports seats and sports steering wheel with the Monte Carlo plaque, as well as LED ambient lighting, Bluetooth, electric front and rear windows, and height adjustable front seats. The overall style is finished with Sunset tinted windows, glossy black details and front door sill covers.

The unmistakably sporty style of the Monte Carlo versions continues with the design of the interior. The focal point are the sports seat that will catch your attention with their sporty red and grey accents. The sporty theme continues with red metallic décor, door handles, centre console and dash pad in metallic red, a carbon fabric pad with white stitching and black headliner.
