

SKODA

Kodiaq

Make curiosity a family trait

Exploration begins at home. Or rather, the driveway. The robust and spacious Škoda Kodiaq is eager to turn every family drive into a curious exploration. The car makes its undomesticated ambitions quickly known, thanks to a striking design that's bolstered by protective details all around like the wheel arch covers and reinforced front and rear bumpers. Along with the stunning LED Matrix headlights, an array of assistance systems are on hand to keep you safe on every adventure. Things remain cosy inside thanks to the Ergo front seats. Larger families benefit from the third row of seats while the more adventurous will find solace in the unlimited potential of 4x4 drive.

Exterior Design

Dress up any road

As is typical for Škoda SUVs, everything is perfectly balanced. Exterior elements form a harmonious whole, where robustness meets elegance.

Style and functionality

The newly designed elements of the front end, such as the bonnet, grille, headlights, and bumper with spoiler, underline the car's confident expression. Above all, plastic protective elements all around the vehicle, including a bold add-on part on the front bumper spoiler in the off-road design, directly invite you to explore new paths.

Sunroof

The optional electrically-adjustable panoramic sunroof, which allows you to create a large open space above the front seats, will enhance the attractive look of the car and provide more pleasure and a greater feeling of freedom for all passengers. If necessary, it can be covered with an electrically-adjustable blind.

Full LED Matrix headlights

The newly shaped Kodiaq headlights are available in two types in terms of functionality. Equipped with LED lights, both types offer high performance and high energy efficiency. The top-end option comes with full LED Matrix headlights, which represent state-of-the-art technology.

Full LED rear lights

The full LED rear lights impress with their stylish appearance and efficient performance. Fitted with animated turn indicators, they significantly improve the visibility of your car for other drivers. In addition, when you lock and unlock your car, the welcome effect activates the animation feature.

SUV signature

The rear features the new roof spoiler in glossy black, which underlines the car's distinctive appearance while improving its aerodynamics. The robust bumper with the lower part in black matt complemented by an add-on part in aluminium look, emphasise that the Kodiaq feels at home on off-road adventures. With its higher ground clearance, the vehicle can travel off the tarmac regardless of the type of drive selected. If you are looking for the best possible off-road capability, we recommend the 4x4 version available with both petrol and diesel engine.

Interior Design

Explore family conversations

The car is designed to keep all members of your family relaxed and entertained. While the ambient lighting and other decorative elements add to the overall stylish feel of the interior, the virtual cockpit and optional ventilated Ergo front seats will enhance your driving confidence.

LED ambient lighting* / sound system

The ambient lighting allows you to choose one of the ten colour options for the dashboard, front and rear door lighting, or even the front and rear foot area illumination. The selected colour will also appear in the background of the Virtual Cockpit. The unique interior lighting can be accompanied by perfect sound. Enjoy absolute sound clarity on the Canton Sound System with twelve speakers, delivering a total power output of 625 Watts.

* LED ambient lighting and Canton Sound System not available for Ambition

Virtual cockpit*

The virtual cockpit displays onboard computer specifications in combination with other information such as navigation. You can choose from five layouts controlled via the View button on the steering wheel.

*Optional for Ambition

Ergo front seats

Maximum comfort for the driver and front passenger is ensured by the optional electrically-adjustable Ergo front seats, which also feature, among other things, cushion depth adjustment and massage function. Optional ergo seats for available for Style only

Decorative elements

The decorative stitching, which can also be found on the dashboard, and chrome details, such as the air ventilation frames and Canton Sound System speaker frames, increase your feeling of comfort.

Connectivity

SmartLink

With the SmartLink, the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with Apple CarPlay or Android Auto, which are also available wirelessly.

Additional connectivity options

Discover additional options and features. For example, with Laura, a digital voice assistant is available in your car. With the SmartLink feature, supporting Apple CarPlay and Android Auto, the car's infotainment system allows you to use your phone safely while driving.

Laura digital voice assistant

This voice control system understands fluent sentences. Say the destination with natural voice input, dictate text messages, or even ask her to tell you a joke. To start fulfilling your wishes, simply contact her by saying "Okay, Laura!"

Smart
features

Škoda's little helpers

Life is easier when equipment is practical. Thus, the Kodiaq comes with features based on your actual needs and includes Simply Clever details that help you avoid any inconveniences, even if it's just looking for a place to store your drink.

Door edge protection (optional)

Your car can also be equipped with optional door edge protection. When opening all side doors, plastic strips eject and cover the edges. In this way, the Kodiaq protects itself against damage as well as being considerate to other cars. Perfect for tight parking spaces, for instance.

*part of Family Package

Umbrella storage compartment

An ingenious compartment with original Škoda umbrella is fitted inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

Ice scraper

The ice scraper, which is mounted on the fuel cap, can also be used to measure the depth of the tyre tread.

Liquid reservoir

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible, but also has an integrated funnel.

Comfort is your co-driver

The Kodiaq lets you turn a routine trip into an extraordinarily pleasant experience. Treat yourself to some luxury that will give you that special feeling as you set out for ordinary, everyday destinations.

Foldable mirrors

The automatically foldable external side-view mirrors fold in when the car is locked. This protects the mirrors from damage, especially when parking in a confined space, and you also have a visual confirmation that you have locked your car. The driver's side mirror also features a dimming function that prevents glare from the car behind you.

KESY

With the new version of the KESY (Keyless Entry, Start and exit System), all doors can be used to unlock or lock the car.

Phone box and wireless charging

The phone box in the centre console enables wireless charging and wireless connection to SmartLink. Two USB-C data ports located above the phone box allow you to easily connect and pair your external devices with the infotainment system.

Air Care and Air Quality sensor

The Climatronic air conditioning features a smart Air Care function and Air Quality sensor that contribute to cleaner air in the vehicle. Air Care can clean dust from the interior and must be activated by the driver via the Climatronic menu. The Air Quality sensor, which detects excessive air pollution, responds automatically by switching to internal air circulation mode, taking into account the possibility of the window fogging up. This function needs to be activated only once in the infotainment system.

Comfort in the back

On the rear part of the Jumbo box, you will find, among other things, a USB-C port, enabling mobile phone charging, and a 12V socket. Note: 230 V charging is not available in NZ models.. *Optional for Ambition

Jumbo box

The spacious Jumbo box storage compartment is housed in the front armrest. When the air conditioning is on, you can even cool your snacks here.

Adaptive Cruise Control

The driver's comfort during long motorway journeys is enhanced by the Adaptive Cruise Control, which operates up to speeds of 210 km/h. Optional for Ambition.

Seven-seater interior

Up to seven people can travel in the Kodiaq version that has a third row of seats. This means that there are two extra seats available with a separate foldable backrest. When using the third row of seats, the luggage space cover needs to be removed. The double floor provides extra storage space for it, so you don't have to keep it in the garage or home. We haven't forgotten about the comfort of passengers on the third row of seats. They will appreciate the bottle and mobile phone holders in the luggage compartment side covers.

Return home with more than just photographs

Ambitious plans require ambitious spaces, especially if you're traveling with a large family. The new Kodiaq is carefully thought through, so everyone can find a place for everything they want to take with them.

Cargo elements

To avoid any undesired movement of luggage while driving, these two plastic cargo elements are ideal. They are stowed away in the compartments behind the rear wheel arches when not in use.

Net programme

The set, including one horizontal and two vertical nets, will reliably prevent your things from moving around. Plus, you will clearly see where you put everything.

Hooks

The robust sliding hooks, located on the sides of the luggage compartment, make your bags easier to transport and more secure.

Capacity

The seven-seater offers 270 litres when the car is fully occupied to 2,005 litres with the third and second rows of seats folded down.

Safety

Travel assist

The Travel Assist system as well as its higher version combines the functions of several assistants and ensures you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel.

Adaptive Cruise Control

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system maintains a safe distance from vehicles in front of you, controlling the engine and actuating the brakes to automatically accelerate or decelerate as needed. The system increases driver comfort and driver safety while also reducing fuel consumption and CO₂ emissions.

*Not available for Ambition

Traffic Jam Assist / Follow Drive

This function is designed to facilitate driving in traffic jams. By controlling the engine, brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again.

Not available for Ambition.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

Emergency Assist

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.
*Not available for Ambition

Front Assist

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

Crew Protect Assist

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts. The new state-of-the-art version of the system can use radar sensors both in front and in the rear.

Side Assist / Rear Traffic Alert

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70m away) monitoring the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver. Using the Side Assist sensors in rear bumper, Rear Traffic Alert (not shown) warns the driver of rear traffic as they pull away from a row of perpendicularly parked vehicles (visually on the infotainment display/ onboard computer display or acoustically), or, if the case so requires, intervenes proactively, i.e., stops the car.

Additional experts on board

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

Matrix Beam function

The full LED Matrix headlights feature Matrix Beam Function. This allows you to use the high beams continuously, without blinding other drivers. Using a windscreen camera, the Matrix Beam Function responds to the traffic situation and turns off only some segments of the road. In addition, thanks to this function, you are not

of the light. Other segments are turned on and illuminate blinded by reflective materials on traffic signs, for example. The Matrix Beam Function also uses information from the navigation system, so the high beams will only turn on when you are out of a built-up area. *Available for Sportline and RS

Safe happens

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can equip your car with up to nine of them.

Knee airbag

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

Front driver and passenger airbags

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

Front and rear side airbags

These airbags (shown together with the activated head airbag) protect the pelvis and chest of the driver and other passengers in the event of a side collision.

Head airbags

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

Sportline

Work from home, play anywhere

Your lifestyle may evolve, but sporty style is here to stay. The Škoda Kodiaq Sportline makes a convincing case for it. With a dynamic character and do-it-all attitude, this car can turn any road into your playground.

Style and functionality

The exterior of the new Kodiaq Sportline features stylish elements including front grille frame in glossy black, exterior side-view mirror caps and roof railings in black, SportLine badge on the front wings, black inscriptions (such as Škoda, the model name or 4x4), and decorative exhaust pipe end pieces in a chrome design. The car's charisma is emphasised by anthracite alloy wheels (19" as standard or 20" as an option).

Sporty is in the details

Every detail of the new Kodiaq Sportline reflects its energetic attitude. The interior is characterised by high-quality materials and exclusive v in a sporty style including the SportLine logo on the steering wheel.

Upholstery and seats

The car always features front sports seats, which underline the dynamic interior design. The black perforated Suedia/leather/leatherette upholstery (shown) with silver stitching also comes as standard. The Suedia ceiling in black is optional. The perforated leather/leatherette upholstery (combined with ventilated electrically-adjustable front seats with built-in memory and cushion depth adjustment) is also optional.

Sports steering wheel

The pleasure of driving the car is enhanced by the multifunctional sports steering wheel in perforated leather with silver stitching.

RS

Family life, turbocharged

With a 4x4 drive and 2.0 TSI/180 kW engine at its heart, the Škoda Kodiaq RS transforms every chore into a dynamic experience. To ensure all that power doesn't go to your head, there are plenty of safety assistants to protect the most powerful family in the neighbourhood. Yours.

RS badge

The uniqueness of the car is emphasised by original details such as the sports RS badge on the front grille, which is a nod to the famous racing tradition of Škoda cars.

Style and functionality

The car's sporty genes and dynamic personality are highlighted by many features such as bumpers in RS design, glossy black exterior elements including front grille with RS badge, black inscriptions (such as Škoda, the model name or 4x4), visible exhaust pipe end pieces in polished stainless steel finish, and 20" black alloy wheels. The full LED Matrix headlights and top full LED tail lights with animated turn indicators also come as standard.

Prepare for take off

Welcome to the cockpit. Fasten your seatbelts and get ready for a remarkably pleasant ride. The interior reflects the exceptional sporty charisma of the car while keeping you in maximum comfort.

Upholstery and seats

The car always features front sports seats with RS logo embroidered on the backrest, which underline the dynamic interior design. The black perforated Suedia/leather/leatherette upholstery with red stitching (shown) comes as standard. The Suedia ceiling in black is optional. The perforated leather/leatherette upholstery (combined with ventilated electrically-adjustable front seats with built-in memory and cushion depth adjustment) is also optional.

Sports steering wheel

The car's sporty charisma is emphasised by the sports steering wheel in perforated leather with red stitching, which also carries the RS logo. In addition to the steering wheel and upholstery, red stitching can also be found on the dashboard, gear stick sleeve, front centre armrest, and front and rear door armrests.

Customisation

Style

The equipment of the Style version includes 19" Cursa alloy wheels, chrome side window frames, electrically-adjustable, heated and foldable external side-view mirrors, roof railings in silver, door sill strips in the front, KESSY (Keyless Entry, Start and exit System), front foot area illumination, lumbar support for front seats, Park Distance Control in the rear, Climatronic dual-zone air conditioning, plus more.
