MAKE CURIOSITY A FAMILY TRAIT

Exploration begins at home. Or rather, the driveway. The robust and spacious ŠKODA KODIAQ is eager to turn every family drive into a curious exploration. The car makes its undomesticated ambitions quickly known, thanks to a striking design that's bolstered by protective details all around like the wheel arch covers and reinforced front and rear bumpers. Along with the stunning LED Matrix headlights*, an array of assistance systems is on hand to keep you safe on every adventure. Larger families can take advantage of the seven-seats, and the more adventurous ones can tackle any terrain with the optional 4x4 drive.

That's Simply Clever. That's ŠKODA.

*Matrix headlights standard on Sportline and RS models only.

EXTERIOR DESIGN

DRESS UP ANY ROAD

As is typical for ŠKODA SUVs, everything is perfectly balanced. Exterior elements form a harmonious whole, where robustness meets elegance.

STYLE AND FUNCTIONALITY

The newly designed elements of the front end, such as the bonnet, grille, headlights, and bumper with spoiler, underline the car's confident expression. Above all, plastic protective elements all around the vehicle, including a bold add-on part on the front bumper spoiler in the off-road design, directly invite you to explore new paths.

SUNROOF

The optional electrically-adjustable panoramic sunroof, which allows you to create a large open space above the front seats, will enhance the attractive look of the car and provide more pleasure and a greater feeling of freedom for all passengers. If necessary, it can be covered with an electrically-adjustable blind.

FULL LED MATRIX HEADLIGHTS

The newly shaped KODIAQ headlights are available in two types in terms of functionality. Equipped with LED lights, both types offer high performance and high energy efficiency. The top-end Sportline and RS models come with full LED Matrix headlights, which represent state-of-the-art technology.

FULL LED REAR LIGHTS

The full LED rear lights impress with their stylish appearance and efficient performance. Fitted with animated turn indicators, they significantly improve the visibility of your car for other drivers. In addition, when you open and close the car, the welcome effect activates the animation feature.

SUV SIGNATURE

The rear features the new roof spoiler in glossy black, which underlines the car's distinctive appearance while improving its aerodynamics. The robust bumper with the lower part in black matt complemented by an add-on part in aluminium look emphasise that the KODIAQ feels at home on off-road adventures. With its higher ground clearance, the vehicle can travel off the tarmac regardless of the type of drive selected.

If you are looking for the best possible off-road capability, we recommend the 4x4 version available with both petrol and diesel engine.

INTERIOR DESIGN

EXPLORE FAMILY CONVERSATIONS

The car is designed to keep all members of your family relaxed and entertained. While the ambient lighting and other decorative elements add to the overall stylish feel of the interior, the Digital Dashboard and optional Ergo front seats will enhance your driving confidence.

LED AMBIENT LIGHTING / SOUND SYSTEM

The ambient lighting allows you to choose one of the ten colour options for the dashboard, front and rear door lighting, or even the front and rear foot area illumination. The selected colour will also appear in the background of the Digital Dashboard. The unique interior lighting can be accompanied by perfect sound. Enjoy absolute sound clarity on the Canton Sound System with twelve speakers, delivering a total power output of 625 watts. LED ambient lighting is not available for Ambition.

DIGITAL DASHBOARD

The Digital Dashboard displays onboard computer specifications in combination with other information such as navigation. You can choose from five layouts controlled via the View button on the steering wheel. Optional for Ambition and Style.

ERGO FRONT SEATS

Maximum comfort for the driver and front passenger is ensured by the optional electrically-adjustable Ergo front seats, which also feature, among other things, cushion depth adjustment and massage function. Optional ergo seats available for Style only.

DECORATIVE ELEMENTS

The decorative stitching, which can also be found on the dashboard, and chrome details, such as the air ventilation frames and Canton Sound System speaker frames, increase your feeling of comfort.

Canton Sound System is optional for Ambition.

CONNECTIVITY

SMARTLINK

With the SmartLink, the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with Apple CarPlay or Android Auto, which are also available wirelessly.

**SIMPLY
CLEVER**

ŠKODA'S LITTLE HELPERS

Life is easier when equipment is practical. Thus, the KODIAQ comes with features based on your actual needs and includes Simply Clever details that help you avoid any inconveniences, even if it's just looking for a place to store your drink.

DOOR EDGE PROTECTION

Your car can also be equipped with optional door edge protection. When opening all side doors, plastic strips eject and cover the edges. In this way, the KODIAQ protects itself against damage as well as being considerate to other cars. Perfect for tight parking spaces, for instance.

UMBRELLA STORAGE COMPARTMENT

An ingenious compartment with original ŠKODA umbrella is fitted inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

REFLECTIVE VESTS

Optional vests can be located in the storage compartments in the front and rear doors, ensuring they are always within reach.

DRIVER'S STORAGE BOX

The driver can utilise a practical tilting storage compartment located directly below the steering wheel.

STORAGE COMPARTMENTS

Two spacious compartments with tilting lid are located in the dashboard by the front passenger seat. The lower one can be air conditioned.

ICE SCRAPER

The ice scraper, which is mounted on the fuel cap, can also be used to measure the depth of the tyre tread.

LIQUID RESERVOIR

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible, but also has an integrated funnel.

**COMFORT
AND
SPACE**

COMFORT IS YOUR CO-DRIVER

The KODIAQ lets you turn a routine trip into an extraordinarily pleasant experience. Treat yourself to some luxury that will give you that special feeling as you set out for ordinary, everyday destinations.

FOLDABLE MIRRORS

The automatically foldable external side-view mirrors fold in when the car is locked. This protects the mirrors from damage, especially when parking in a confined space, and you also have a visual confirmation that you have locked your car. The driver's side mirror also features a dimming function that prevents glare from the car behind you.

KESY

With the new version of the KESY (Keyless Entry, Start and exit System), all doors can be used to unlock or lock the car. Optional for Ambition.

HEADLIGHT WASHERS

The optional integrated telescopic headlight washers easily take care of dust and mud.

WELCOME LOGO

The LEDs located on the underside of the front doors, projecting the ŠKODA inscription, illuminate the entry area.

STORAGE COMPARTMENT AND WIRELESS CHARGING

The storage compartment in the centre console enables wireless charging and wireless connection to Smartlink. Two USB-C data ports located above the compartment allow you to easily connect and pair your external devices with the infotainment system.

COMFORT IN THE BACK

On the rear section of the Jumbo Box, you will find, among other things, a USB-C port, enabling mobile phone charging, and a 12V socket. Note: 230V charging is not available in NZ models.

JUMBO BOX

The spacious Jumbo Box storage compartment is housed in the front armrest. When the air conditioning is on, you can even cool your snacks here.

ADAPTIVE CRUISE CONTROL

The driver's comfort during long motorway journeys is enhanced by the Adaptive Cruise Control, which operates up to speeds of 210 km/h. Optional for Ambition.

REAR ARMREST

When the middle rear seat is not occupied, the armrest with drink holders can be folded down.

FOLDABLE TABLES

The comfort of the passengers in the rear seats can also be increased thanks to the optional foldable tables, which are built into the backrests of both front seats. Option only available for Ambition.

SEVEN-SEATER INTERIOR

Up to seven people can travel in the KODIAQ that comes standard with a third row of seats. This means that there are two extra seats available with a separate foldable backrest. When using the third row of seats, the luggage space cover needs to be removed. The double floor provides extra storage space for it, so you don't have to keep it in the garage or home. We haven't forgotten about the comfort of passengers on the third row of seats. They will appreciate the bottle and mobile phone holders in the luggage compartment side covers.

RETURN HOME WITH MORE THAN JUST PHOTOGRAPHS

Ambitious plans require ambitious spaces, especially if you're traveling with a large family. The new KODIAQ is carefully thought through, so everyone can find a place for everything they want to take with them.

CARGO ELEMENTS

To avoid any undesired movement of luggage while driving, these two plastic cargo elements are ideal. They are stowed away in the compartments behind the rear wheel arches when not in use.

NET PROGRAMME

This optional set, that includes one horizontal and two vertical nets, will reliably prevent your things from moving around. Plus, you will clearly see where you put everything.

CAPACITY

The seven-seater offers 270 litres when the car is fully occupied or 2,005 litres with the third and second rows of seats are folded down.

HOOKS

The robust sliding hooks, located on the sides of the luggage compartment, make your bags easier to transport and more secure.

DOUBLE FLOOR

The double floor provides easier luggage handling or a discreet storage place, with the bottom of the luggage compartment positioned at the loading edge level.

REMOTE RELEASE IN THE BOOT

The car is equipped with a remote release button in the boot that allows you to fold down the rear seat from the luggage compartment, which makes loading the car even more effortless.

SAFETY

TRAVEL ASSIST

The Travel Assist system combines the functions of several assistants and ensure that you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system maintains a safe distance from vehicles in front of you, controlling the engine and actuating the brakes to automatically accelerate or decelerate as needed. The system increases driver comfort and driver safety while also reducing fuel consumption and CO₂ emissions. Note - Traffic Signal recognition shown above is not available in NZ.

TRAFFIC JAM ASSIST / FOLLOW DRIVE

This function is designed to facilitate driving in traffic jams. By controlling the engine, brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again. Not available for Ambition.

ADAPTIVE LANE ASSIST

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

EMERGENCY ASSIST

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.

FRONT ASSIST

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

SIDE ASSIST / REAR TRAFFIC ALERT

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver. Using the Side Assist sensors in rear bumper, Rear Traffic Alert (not shown) warns the driver of rear traffic as they pull away from a row of perpendicularly parked vehicles (visually on the infotainment display/ onboard computer display or acoustically), or, if the case so requires, intervenes proactively, i.e., stops the car.

PARK ASSIST

The system automatically selects an appropriate parking space in a row of parallel or perpendicularly parked vehicles. The updated Park Assist function now means that it can just be used for part of the parking manoeuvre. For example, you can select a parking space yourself and attempt to park your car some of the way, but for the more difficult part of the parking manoeuvre, simply activate Park Assist, which takes control of the steering wheel.

MANOEUVRE ASSIST

Using the sensors of the Park Assist, this system offers protection from obstacles within driving distance of the car (at speeds of up to 8 km/h). If an obstacle is detected, based on the distance from the obstacle and the car's speed, the system engages the emergency braking.

The Side Assist, Rear Traffic Alert (not shown), and Park Assist come as part of the Travel Assist higher version.

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

MATRIX BEAM FUNCTION

The full LED Matrix headlights feature matrix beam function. This allows you to use the high beams continuously, without blinding other drivers. Using a windscreen camera, the matrix beam function responds to the traffic situation and turns off only some segments of the light. Other segments are turned on and illuminate the road. In addition, thanks to this function, you are not blinded by reflective materials on traffic signs, for example. The matrix beam function also uses information from the navigation system, so the high beams will only turn on when you are out of a built-up area. Optional for Ambition and Style.

CREW PROTECT ASSIST

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts. The new state-of-the-art version of the system can use radar sensors both in front and in the rear.

SAFE HAPPENS

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can equip your car with up to nine of them.

FRONT DRIVER AND PASSENGER AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These airbags (shown together with the activated head airbag) protect the pelvis and chest of the driver and other passengers in the event of a side collision.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

PERFORMANCE

FORCE OF NATURE

Every family has a different story: frequent trips to the mountains, an urban adventure, or off-road exploration. Whatever the story, we have the right alternative for every family. And in every case, we offer dynamism combined with excellent fuel consumption.

DYNAMIC CHASSIS CONTROL

Enjoy the high performance of your car in maximum comfort and safety. The Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. As part of the infotainment menu, it allows you to select one of three modes according to your specific requirements: Comfort, Normal or Sport. Optional for Ambition.

ENGINES

If you prefer petrol engines, you can choose between 110 kW output in combination with front-wheel drive, or 132 kW or 180 kW outputs accompanied by 4x4 drive. Our diesel offering includes a 147kW engine in combination with 4x4 drive.

SPORTLINE

WORK FROM HOME, PLAY ANYWHERE

Your lifestyle may evolve, but sporty style is here to stay. The ŠKODA KODIAQ SPORTLINE makes a convincing case for it. With a dynamic character and do-it-all attitude, this car can turn any road into your playground.

STYLE AND FUNCTIONALITY

The exterior of the new KODIAQ SPORTLINE features stylish elements including front grille frame in glossy black, exterior side-view mirror caps and roof railings in black, SPORTLINE badge on the front wings, black inscriptions (such as ŠKODA, the model name or 4x4), and decorative exhaust pipe end pieces in a chrome design. The car's charisma is emphasised by 19" anthracite alloy wheels.

The image shows the driver's side interior of a car. The steering wheel is black with a perforated texture and features a silver SportLine logo in the center. The dashboard is black with a digital instrument cluster displaying 'P' and '500/500'. The center console has a gear shifter and handbrake. The seats are black with white stitching. A red accent line is visible on the door panel and the center console. The car is parked outdoors, with trees and a building visible through the windows.

SPORTY IS IN THE DETAILS

Every detail of the new KODIAQ SPORTLINE reflects its energetic attitude. The interior is characterised by high-quality materials and exclusive features in a sporty style including the SportLine logo on the steering wheel.

UPHOLSTERY AND SEATS

The car always features front sports seats, which underline the dynamic interior design. The black perforated Suedia/leather/leatherette upholstery (shown) with silver stitching also comes as standard. The Suedia ceiling in black is optional. The perforated leather/leatherette upholstery (combined with ventilated electrically-adjustable front seats with built-in memory and cushion depth adjustment) is also optional.

SPORTS STEERING WHEEL

The pleasure of driving the car is enhanced by the multifunctional sports steering wheel in perforated leather with silver stitching.

**PUTS THE SPORT
IN TRANSPORT**

RS

FAMILY LIFE, TURBOCHARGED

With a 4x4 drive and 2.0 TSI/180 kW engine at its heart, the ŠKODA KODIAQ RS transforms every chore into a dynamic experience. To ensure all that power doesn't go to your head, there are plenty of safety assistants to protect the most powerful family in the neighbourhood. Yours.

RS BADGE

The uniqueness of the car is emphasised by original details such as the sports RS badge on the front grille, which is a nod to the famous racing tradition of ŠKODA cars.

STYLE AND FUNCTIONALITY

The car's sporty genes and dynamic personality are highlighted by many features such as bumpers in RS design, glossy black exterior elements including front grille with RS badge, black inscriptions (such as ŠKODA, the model name or 4x4), visible exhaust pipe end pieces in polished stainless steel finish, and 20" black alloy wheels. The full LED Matrix headlights and LED rear lights with animated turn indicators also come as standard.

PREPARE FOR TAKE OFF

Welcome to the cockpit. Fasten your seatbelts and get ready for a remarkably pleasant ride. The interior reflects the exceptional sporty charisma of the car while keeping you in maximum comfort.

UPHOLSTERY AND SEATS

The car always features front sports seats with RS logo embroidered on the backrest, which underline the dynamic interior design. The black perforated Suedia/leather/leatherette upholstery with red stitching (shown) comes as standard. The Suedia ceiling in black is optional. The perforated leather/leatherette upholstery (combined with ventilated electrically-adjustable front seats with built-in memory and cushion depth adjustment) is also optional.

SPORTS STEERING WHEEL

The car's sporty charisma is emphasised by the sports steering wheel in perforated leather with red stitching, which also carries the RS logo. In addition to the steering wheel and upholstery, red stitching can also be found on the dashboard, gear stick sleeve, front centre armrest, and front and rear door armrests.

ALWAYS LAND ON TIME

CUSTOMISATION

AMBITION

The standard equipment of the Ambition version includes 17" Elbrus alloy wheels, LED rear lights with animated turn indicators and welcome effect, door armrest stitching, door insert stitching, umbrella storage compartment in the front door (including umbrella), Jumbo Box including drinks holder and 12 V socket, rear armrest with drinks holder, compartments (right and left) behind the rear wheel arches, plus more.

ACCESSORIES

MAKE YOUR KODIAQ YOUR KODIAQ

REAR SEAT PROTECTION

The practical cover prevents the interior of your car from getting dirty or damaged. Its size can be changed to cover only half of the rear seat

Accessories aren't just fashion fads. With ŠKODA Genuine Accessories, you can transform your car by expanding its practicality, safety, and purpose, and make it a lot more suitable for your specific needs.

DOG SAFETY BELT

If one of your usual passengers is a dog, we recommend equipping your car with a special safety belt

CHILD SEATS

Each type of child safety seat from the ŠKODA Genuine Accessories passes through a series of rigorous tests. In our wide range, you will find seats designed for children up to 36 kg (Kidfix II XP child seat shown).

SUN SHADES FOR THE 5TH DOOR AND BOOT SIDE WINDOWS

This useful and easy-to-fit accessory provides protection from sun as well as concealing the cargo area from prying eyes.

SUN SHADES FOR REAR SIDE WINDOWS

This accessory for the whole year round protects you from harsh sunlight in the summer and provides greater privacy from passersby looking inside.

SMART HOLDER – MULTIMEDIA HOLDER

The holder for an external device, which can be mounted on the front seat headrests, will definitely be appreciated by the rear seat passengers.

SMART HOLDER – HOOK

Handbags and backpacks don't have to take up space on the back seats. Hang them from the smart holder hook that is fixed to the front headrests.

SMART HOLDER – CLOTHES HANGER

The clothes hanger, which can be mounted on the front seat headrests, is an extremely practical accessory, especially for those who travel to work wearing a suit.

FOLDABLE BOOT PROTECTION

This practical accessory is designed to protect the floor and the sides of the luggage compartment. It can also cover the rear bumper to prevent any damage. Thanks to its waterproof material, it is easily washable.

**FOLDABLE DOUBLE-SIDED BOOT MAT**

The foldable double-sided mat (rubber/textile) helps to keep the luggage compartment clean even when transporting relatively long items that are dirty. It allows you to cover the rear bumper while loading items, thus protecting it from dirt and damage.

**BOOT DISH**

This accessory protects the luggage compartment from moisture and dirt, and is therefore a practical solution for any vehicle.

**ALUMINIUM PARTITION FOR BOOT DISH**

Aluminium partition can be inserted into the dish, separating the storage space into any number of smaller compartments.

PRESTIGE TEXTILE FOOT MATS WITH GREY STITCHING

They aesthetically complement the modern interior design and outline the footwell contours.

DECORATIVE DOOR SILL COVERS WITH ALUMINIUM INSERTS

Four-piece decorative door sill covers with aluminium inserts are an accessory that can be used to enhance your vehicle's aesthetics. They also protect the paintwork around the door sills from dirt.

ALUMINIUM DECORATIVE DOOR SILL COVERS

Four-piece aluminium door sill covers with KODIAQ inscription, which perfectly follow the contours of the vehicle, are an original feature with aesthetic as well as practical functions.

FRONT AND REAR MUDFLAPS

The front and rear mud flaps protect the lower areas of the vehicle body from dirt and damage caused by stones and debris striking them. Mud flaps are useful especially in winter, when the corrosive salt that is spread on the roads generally sticks to the mud flaps rather than to the vehicle body.

FOOTBOARDS

Made from stainless steel, this accessory is designed to stand out and make your life easier when loading various objects on the roof. It is also fitted with an anti-slip rubber liner to increase your safety.

LOCKABLE SKI OR SNOWBOARD RACK

The lockable rack, which has passed ŠKODA's load tests and safety tests, is a simple solution for transporting your skis or snowboard on the car roof. It can carry 4 pairs of skis or 2 snowboards.

BICYCLE CARRIER FOR TOW BAR

The rack is extremely sturdy, easy to fit, and easy to use – simply lift the bicycle up a little to secure it in place. It works with all types of tow bars and is available in 2- and 3-bicycle variants.

LOCKABLE BICYCLE RACK

You can securely attach the lockable bicycle rack with aluminium profile onto the basic roof rack.

TRANSVERSE ROOF RACK

Thanks to the lockable transverse roof rack, you can use other racks and holders from the ŠKODA Genuine Accessories range such as bicycle or ski carriers and ski or snowboard boxes.

ROOF BOXES

Enjoy a larger capacity and easier loading with the ŠKODA roof boxes, which enable you to transport skis or snowboards, as well as bulky luggage, pushchairs, etc., that would not fit into the boot of a fully occupied car. All roof boxes feature an advanced aerodynamic shape and UV protection, ensuring that your box will always look new.

ROOF BOX – 400 LITRES

This lockable roof box for up to 6 pairs of skis or 5 snowboards features exceptional capacity, opening on both sides, and easier handling. The box is available in black or silver.

ROOF BOX – 380 LITRES

The lockable roof box with an aerodynamic profile for up to 5 pairs of skis or 4 snowboards features an optimised shape with a lower bottom, which positively affects driving stability and limits vibrations while minimising air drag and associated driving noise. The box is available in black, silver, and white.
