

SKODA

The new
Scala

For all that you are

You are what you do. And if you play a lot of roles in life, then you need a playmate who can keep up with your pace. Someone like the new Škoda Scala.

The Scala's do-it-all attitude is dressed in a strikingly unique design. Inside, the Škoda Scala continues to tick all possible boxes with its host of comfort, connectivity and safety features. The modern driver will certainly feel empowered by must-haves like the LED headlights, Climatronic panel, Keyless entry and immersive infotainment display.

That's what we call versatile. That's what we call Škoda.

Add beauty to duty

We believe that your companion for everyday mobility should bring you joy and excitement with its attractive looks. The Scala is an example of that. The compact hatchback combines the sporty style and empowering functionality that builds on the long heritage of Škoda family cars.

Active meets attractive

At the first glance, you'll notice the sleeker headlights. The wider front grille and distinctively sporty-shaped bumper complete the new, more dynamic look of the Scala. The sportier rear bumper sets off the whole style. Still as practical as ever, but now even more attractive.

Panoramic roof

On the outside, the optional panoramic roof underscores the sleek, stylish look. On the inside, it brightens the interior and opens the view of the sky above.

The sleeker, sharper taillights are the prominent feature of the new Scala's rear. The rear bumper with integrated diffuser and eye-catching reflectors adds a sporty touch. The elongated rear window with spoiler and Škoda lettering remains as classy as ever.

For day shifts
and night shifts

Full LED headlights

They catch the eye and help you see. The Scala is all about LED technology, with standard-fit LED headlights, including corner function, full LEDs for daylight driving and LED turning lights.

LED taillights

Helping you be seen with the bright LED light and immersive design. The crystalline elements of the LED taillights will attract the attention of everyone behind you.

KESSY

No more hassle looking for your keys. With the Keyless Entry, Start, and Exit System, the doors unlock or lock again with just a touch of the door handle. You just need to have the key in your pocket.

Living room. Lounge. Office

Driver focused and sharp, yet functional and roomy for all passengers. The focal point of the new interior is the 8" digital display, accompanied by an 8.25" infotainment system in the middle of the dashboard. The dashboard itself draws attention with the new upholstered fabric grey décor. This is matched by the redesigned seat upholstery and the new ambient lighting with two switchable colours that underscores the stylish look.

Climatronic

Maintaining a pleasant climate on board is now easier than ever. The Climatronic air conditioning system is fitted with a pair of buttons that allow you to adjust the air flow without taking your eyes off the road.

Home to all your digital avatars

Today's world is digital. The Scala is the perfect everyday companion to take care of your digital needs as well. Whether charging your devices or providing you with the latest information on a big screen, it always has a solution.

Always charged

With a pair of fast charging USB-C ports you can keep your devices charged at all times with ease.

SmartLink

SmartLink provides you with a connection between your smartphone and the in-built infotainment via Apple CarPlay or Android Auto. Play music, navigate, deal with your text messages and calls, or listen to your podcast.

Umbrella in door

The umbrella compartment in the driver's front door allows for the storage of an umbrella. The compartment is water-resistant so a wet umbrella can be stored here. The water from the umbrella is drained outside the car.

Always more than meets the eye

When exploring the world, it's good to have a partner who takes care of all the small things. With its many smart solutions, the Škoda Scala does just that. Everything you might need is easily on hand in the spacious cabin full of storage options.

Double pocket

Keep your things organised with the double pockets on the rear sides of the front seats. The larger one is perfect for a notebook or laptop computer, while the smaller one nicely fits a smartphone.

Net programme

Everything in its place and easy to see. This set of three nets keeps your items from moving around while keeping them in good view.

If it matters, it fits

Wherever you're going, it's great to have space for everything you might need. It's even better to have everything well-organised and secured safely. With 467 litres of luggage space and a plethora of smart details, everything will find its place and stay exactly where you want it to be with our net package.

Net pocket

Lighter items that need to be on hand even when the boot is full can be stored in this practical net, out of sight under the luggage room cover.

Cargo elements

The easy way to secure larger items. The optional cargo elements can be fixed to the floor using Velcro and can be folded into any angle.

Cruise Control + Speedlimiter

Cruise control helps the driver to maintain the set speed without having to press the accelerator pedal.

Even safety can multitask

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

Lane Assist

Lane assist recognises an unintentional departure from the lane, providing a visual message, and initiates corrective steering. It is activated at speeds above 65 km/h provided that there are recognisable lane markings on the road surface and the turn signal has not been turned on.

Crew Protect Assist

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts. The new state-of-the-art version of the system can use radar sensors both in front and in the rear.

Front Assist

Front Assist with city emergency brake The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function.

Monte Carlo

Add character to all your characters

Inspired by the great racing heritage of Škoda. Designed to look great both on the roads above Monte Carlo and in the elegant city itself. The Scala Monte Carlo brings sporty style into everyday driving.

Winning looks

Unmistakably sporty, undeniably stylish. The aerodynamic front bumper with integrated spoiler adds dynamic flair, while the gloss black details perfectly suit whatever body colour you choose. The TOP LED Matrix headlights are part of the standard equipment.

The prominent rear bumper with gloss-black diffuser is no not only attractive to look at, but also aerodynamically efficient. Other highlights that are sure to be noticed by the drivers behind you are the elongated glazing and the gloss black lettering.

The trendiest address in any town

Monte Carlo is not only synonymous with the excitement of the famous rally, but also living in style and comfort. The Scala Monte Carlo embodies the same. Scala Monte Carlo is the same. The Carbon look dashboard pad and door inserts combine the elegance with the sporty, dynamic look, which is further enhanced by the characteristic red accents on the upholstery, multifunction sports steering wheel in perforated leather, sports pedal covers and black headliner. The comprehensive equipment, including the Climatronic climate control, 8-speaker stereo, and switchable ambient lighting is there for comfort. The Drive Mode Select allows the driver to choose between the dynamic or cossetting side of the Scala's character.

Racing genes in every corner

The Monte Carlo creates a sportier ambience without compromising on comfort or practicality. It comes with sports seats, sports steering wheel, Carbon look dash pad and door inserts and two-colour ambient lighting.

Focused on the driver

The multifunctional sports steering wheel is upholstered with perforated leather for even better grip and Monte Carlo badge for added style. The freely programmable Virtual Cockpit offers a choice of five display layouts with sporty graphics specific to the Monte Carlo.

Sports seats

The Monte Carlo seats will catch your attention with their sporty red and grey accents. They provide great lateral support for dynamic driving, and plenty of comfort for your everyday commute.

Loft interior

Krepp recycled pad with glossy black décor
 Krepp recycled / black fabric upholstery

Scala Interior
