

SUBARU
ALL-WHEEL DRIVE

OUTBACK

OUTBACK

OUTBACK

DELIVERS IN ALL CONDITIONS*

It's no secret, that to explore the unique beauty of New Zealand's untouched lakes or snow-capped mountains, you need the power and capability of All-Wheel Drive technology. And, there's no better way to get out there and experience it than behind the wheel of one of New Zealand's award-winning safest cars, the Subaru Outback. Giving you the confidence to go anywhere, in almost all conditions.*

*On the very rare occasion that you wish to take your Subaru for a swim, we strongly advise against deep sea driving. While our All-Wheel Drive technology has been rigorously tested, it has not been designed to navigate apocalyptic wastelands, drive through alternative dimensions, or over slip 'n' slides.

WHAT MAKES IT A SUBARU

On New Zealand roads we expect the unexpected. Whether that's unexpected road surfaces, conditions, or the odd wayward sheep, every Subaru comes fully-equipped to handle it.

SCAN TO DISCOVER WHAT'S UNIQUE ABOUT SUBARU

SYMMETRICAL ALL-WHEEL DRIVE

Given the roads Kiwi drivers have to contend with, our Symmetrical All-Wheel Drive system is an indispensable feature for getting around in NZ.

The way it works is simple – as soon as your Subaru senses a loss of traction in any of the four wheels, it instantly transfers that power to the other wheels that still have grip, giving them the extra oomph to get you out of trouble. It happens so seamlessly you probably won't even notice it, you'll just feel that famous Subaru handling.

Delivering confidence & control

Most cars only distribute power to two wheels, while Subaru's All-Wheel Drive system delivers targeted power to all four wheels simultaneously, giving you twice the grip capacity.

Standard on all NZ new Subarus

We believe in All-Wheel Drive so much that it comes standard in every new Subaru sold through our Authorised Subaru Centres. The way we see it, with NZ's diverse conditions, anything less is sub-standard.

Engineered for perfect balance

For the last 50 years our engineers have been perfecting a platform that is symmetrical, creating an innate sense of balance, with a lower centre of gravity, for greater stability around corners and a smoother power delivery.

EYESIGHT® TECHNOLOGY

Eyesight® is Subaru's award-winning system of cameras and clever computing that acts as your second pair of eyes. It provides a host of safety and driver convenience features.

It uses three-dimensional images captured by cameras mounted at the top of the windscreen to monitor the road, and other road users ahead of you. It can do everything from recognising and preventing potentially dangerous situations to making heavy traffic a bit less tedious.

EyeSight Features:

- Pre-collision brake, brake assist and throttle management
- Adaptive cruise control
- Lead vehicle start alert
- Lane sway and lane departure warning
- Brake light recognition
- Lane keep assist
- Autonomous emergency steering
- Lane centering function
- Speed sign recognition

BOXER ENGINE

Every petrol Subaru has another hidden advantage over ordinary cars: its distinctive 'flat' Boxer engine. Horizontally opposed pistons are balanced with the punching action of two boxers, hence the name, and allow for a lower profile engine. When combined with the AWD platform, every Subaru handles like a dream. And the Boxer engine benefits the driver in other ways too.

Lower centre of gravity. More control.

Designed to sit horizontally in the engine bay, the iconic Boxer gives you a low centre of gravity for better handling, balance, and a smoother drive.

More power. Less vibration.

The evenly balanced forces of the engine produce more torque with less vibration. And with less vibration, comes less noise, and greater cabin comfort.

Flatter engine layout. Higher level of safety.

Perhaps most importantly of all, if a severe frontal collision occurs, due to its low position, the engine will slide below the cabin – not into it.

X-MODE

Activate this and your Outback knows you mean business. It increases driving performance by reducing potential wheel spin on super slippery surfaces, steep inclines, and extra rough roads. When navigating steep declines, X-Mode also engages hill descent control. And for models with Dual X-Mode, the deep SNOW/MUD option generates maximum grip more quickly, making it easier to move the vehicle in deep snow or mud.

SUBARU INTELLIGENT DRIVE

SI-DRIVE regulates key engine functions which enables the driver to choose from two distinctive driving modes on selected models: **Intelligent (I)** Mode for everyday city driving and optimised fuel efficiency, or **Sport (S)** Mode for highway driving, enhanced acceleration and consistent power delivery.

DRIVER MONITORING SYSTEM*

The Driver Monitoring System adds further convenience and safety to every drive. Using a driver facing camera and facial recognition technology it knows who is driving and can look out for driver fatigue.

Driver personalisation – Your Subaru can recognise you (and four others) and adjust to your personal preferences, including: driver's seat position, preferred door mirror angle, Multi-Function Display settings, air conditioning settings, and other instrument cluster displays. (Even driver specific fuel efficiency stats for the competitive families.)

Wandering gaze warning – warns both passengers and the driver through a visual and audio alert if the driver continues to look away from the road ahead.

Driver drowsiness warning – can detect if the driver is dozing or getting drowsy and offer a warning. (Drowsiness is recognised by calculating the time ratio the driver's eyes are closed.)

***DMS Safety package:** includes wandering gaze and drowsiness warnings. Available on Outback, Outback X and XT models. **DMS Personalisation package:** includes driver personalisation features on top of safety package. Available on Outback Touring and XT Touring models.

CONNECTIVITY

With a spectacular 11.6" tablet like touchscreen, the infotainment system comes complete with wireless Apple CarPlay™ and Android Auto™ making device connectivity seamless. Satellite Navigation is also available on selected models.

SUBARU LINEARTRONIC TRANSMISSION (WITH MANUAL MODE)

Unlike a conventional automatic transmission, which uses fixed gear ratios, we created the world's first longitudinally mounted continuously variable transmission system to complement our unique Symmetrical All-Wheel Drive system. Result? Greater performance and efficiency, with a smoother gear change and optimum gear ratio at every moment in time. (Or flick it to 'manual mode' and use paddles on the steering column to change through preselected gear ratios.)

5-STAR SAFETY

For us, safety isn't optional, and it shouldn't be for you either.

And, there's nothing more comforting than knowing the Subaru Outback was awarded New Zealand's safest car of the year—as recognised by the NZ Automobile Association and the NZ Herald's Driven. Making it not only the greatest Outback of all time, but also the safest.

SMART KEY & REAR POWERED GATE

For ultimate convenience, every Outback comes with a Smart Key that enables Push Button Start and keyless entry. The Outback X and XT and Outback Touring and XT Touring models all feature a Rear Powered Tailgate that can be opened with the hands-free sensor. Simply place your arm next to the badge while holding the keys. Ideal for when your hands are full.

SUBARU VISION ASSIST

With driver warnings, extra camera angles, and clever features, Subaru Vision Assist gives you extra confidence whether it's changing lanes, or parking in a tight spot. It features:

- Blind spot monitor
- Lane change assist
- Rear cross traffic alert
- Adaptive driving beam*
- Side view monitor*
- Front view monitor*
- Reverse automatic braking*

*Some features are only available on certain models.

WHAT'S UNIQUE
ABOUT OUTBACK

MODELS

OUTBACK

STANDARD FEATURES INCLUDE:

- + 2.5L direct injection Boxer engine
- + Symmetrical All-Wheel Drive
- + 2000kg braked towing capacity
- + 11.6" touchscreen infotainment
- + Wireless Apple CarPlay™
- + Dual function X-Mode with deep snow/mud
- + Fourth generation EyeSight including new features of Lane Centering Function, Speed sign recognition and Lane Departure Warning with steering vibration
- + Driver Monitoring System – safety package (driver distraction and drowsiness detection)
- + 18" alloy wheels – grey finish
- + Blind spot monitor
- + Lane change assist
- + Rear cross traffic alert
- + Reverse automatic braking (RAB)
- + Premium cloth upholstery
- + Steering responsive headlights
- + Self-levelling LED headlights with auto off (dusk sensing)
- + Roof rails with integrated cross bars
- + 10-way power seat – driver
- + 8-way power seat – front passenger
- + USB-A + USB-C + 3.5mm jack – front passengers
- + USB charge port for rear passengers (x2)
- + Passenger seat cushion airbag
- + Auto dimming rear view mirror
- + Subaru Intelligent Drive (SI Drive)
- + Heated power folding door mirrors

OUTBACK X

ADDS TO THE FEATURES OF OUTBACK:

- + Front view monitor
- + Side view monitor
- + Satellite Navigation with Traffic
- + Powered rear tailgate with hands-free badge sensor
- + Water resistant synthetic leather upholstery
- + Heated seats – driver and front passenger, rear passenger seats
- + Leather steering wheel – premium finish
- + Sports pedals

EXCLUSIVE FEATURES FOR OUTBACK X:

- + 18" alloy wheels – dark grey metallic
- + Side badging – green
- + Black roof rails with green accent points
- + Seat stitching colour – green
- + Black highlights for: door mirrors, front grille, front fog lights surround, front and rear bumper guard, shark fin antenna, rear badging

OUTBACK TOURING

ADDS TO THE FEATURES OF OUTBACK X:

- + Seat trim – Nappa leather
- + Dual memory seat – driver
- + Electric sunroof
- + Harman Kardon audio, subwoofer and amplifier
- + Driver Monitoring System – safety and personalisation package (auto door mirror adjustment and auto driver seat adjustment)
- + Single CD player
- + Steering wheel – heated
- + 18" alloy wheels – gloss finish
- + Roof rails with integrated cross bars – silver
- + Door mirrors – satin finish
- + Reverse synchronised door mirror – passenger side

OUTBACK XT

ADDS TO THE FEATURES OF OUTBACK:

- Front view monitor
- Side view monitor
- Satellite Navigation with Traffic
- Powered rear tailgate with hands-free badge sensor
- Water resistant synthetic leather upholstery
- Heated seats – driver and front passenger, rear passenger seats
- Leather steering wheel – premium finish
- Sports pedals
- 2.4L Turbocharged Boxer engine
- 2400kg braked towing capacity

EXCLUSIVE FEATURES FOR OUTBACK XT:

- 18" alloy wheels – dark grey metallic
- Side badging – green
- Black roof rails with green accent points
- Seat stitching colour – green
- Black highlights for: door mirrors, front grille, front fog lights surround, front and rear bumper guard, shark fin antenna, rear badging

OUTBACK XT TOURING

ADDS TO THE FEATURES OF OUTBACK X:

- Seat trim – Nappa leather
- Dual memory seat – driver
- Electric sunroof
- Harman Kardon audio, subwoofer and amplifier
- Driver Monitoring System – safety and personalisation package (auto door mirror adjustment and auto driver seat adjustment)
- Single CD player
- Steering wheel – heated
- 18" alloy wheels – gloss finish
- Roof rails with integrated cross bars – silver
- Door mirrors – satin finish
- Reverse synchronised door mirror – passenger side
- 2.4L Turbocharged Boxer engine
- 2400kg braked towing capacity

ACCESSORIES

Your Subaru isn't complete until you make it 'your Subaru'. So pick the accessories that will make it perfectly equipped for your lifestyle. You can find more accessory options at subaru.co.nz/accessories
