**SUBARU**  
ALL-WHEEL DRIVE

**SUBARU XV**

# DELIVERS IN ALL CONDITIONS

New Zealand. A country where the weather changes as quickly as the landscape. Where native forests surround untouched lakes and snow-capped mountains meet long, rugged beaches. But it's no secret, that to get to these untouched spots you need the power and capability of All-Wheel Drive technology, which comes standard across the whole Subaru range. Giving you the confidence to go anywhere, in almost all conditions.\*

To experience Subaru's All-Wheel Drive for yourself, book a test drive at one of our showrooms today.

\*On the very rare occasion that you wish to take your Subaru for a swim, we strongly advise against deep sea driving. While our All-Wheel Drive technology has been rigorously tested, it has not been designed to navigate apocalyptic wastelands, drive through alternative dimensions, or over slip 'n' slides.

# WHAT MAKES IT A SUBARU

On New Zealand roads we expect the unexpected. Whether that's unexpected road surfaces, conditions, or the odd wayward sheep, every Subaru comes fully-equipped to handle it.

WHAT'S UNIQUE  
ABOUT SUBARU

## SYMMETRICAL ALL-WHEEL DRIVE

Given the roads Kiwi drivers have to contend with, our Symmetrical All-Wheel Drive system is an indispensable feature for getting around in NZ.

The way it works is simple – as soon as your Subaru senses a loss of traction in any of the four wheels, it instantly transfers that power to the other wheels that still have grip, giving them the extra oomph to get you out of trouble. It happens so seamlessly you probably won't even notice it, you'll just feel that famous Subaru handling.

### Delivering confidence & control

Most cars only distribute power to two wheels, while Subaru's All-Wheel Drive system delivers targeted power to all four wheels simultaneously, giving you twice the grip capacity.

### Standard on all NZ new Subarus

We believe in All-Wheel Drive so much that it comes standard in every new Subaru sold through our Authorised Subaru Centres. The way we see it, with NZ's diverse conditions, anything less is sub-standard.

### Engineered for perfect balance

For nearly 50 years our engineers have been perfecting a platform that is symmetrical, creating an innate sense of balance, with a lower centre of gravity, for greater stability around corners and a smoother power delivery.

## EYESIGHT® TECHNOLOGY

Eyesight® is Subaru's award-winning system of cameras and clever computing that acts as your second pair of eyes. It provides a host of safety and driver convenience features. And comes standard in all automatic Subarus.

It uses three-dimensional images captured by cameras mounted at the top of the windscreen to monitor the road, and other road users ahead of you. It can do everything from recognising and preventing potentially dangerous situations to making heavy traffic a bit less tedious.

### EyeSight Features:

- Pre-collision brake, brake assist and throttle management
- Adaptive cruise control
- Lead vehicle start alert
- Lane sway and lane departure warning
- Lane keep assist

## BOXER ENGINE

Every Subaru has another hidden advantage over ordinary cars: its distinctive 'flat' Boxer engine. Horizontally opposed pistons are balanced with the punching action of two boxers, hence the name, and allow for a lower profile engine. When combined with the AWD platform, every Subaru handles like a dream. And the Boxer engine benefits the driver in other ways too.

### Lower centre of gravity. More control.

Designed to sit horizontally in the engine bay, the iconic Boxer gives you a low centre of gravity for better handling, balance, and a smoother drive.

### More power. Less vibration.

The evenly balanced forces of the engine produce more torque with less vibration. And with less vibration, comes less noise, and greater cabin comfort.

### Flatter engine layout. Higher level of safety.

Perhaps most importantly of all, if a severe frontal collision occurs, due to its low position, the engine will slide below the cabin – not into it.

## X-MODE

Activate this and your Subaru XV knows you mean business. It increases driving performance by reducing potential wheel spin on super slippery surfaces, steep inclines, and extra rough roads. When navigating steep declines, X-Mode also engages hill descent control. And for models with Dual X-Mode, the deep SNOW/MUD option generates maximum grip more quickly, making it easier to move the vehicle in deep snow or mud.

## SUBARU INTELLIGENT DRIVE

SI-DRIVE regulates key engine functions which enables the driver to choose from two distinctive driving modes on selected models: **Intelligent (I)** Mode for everyday city driving and optimised fuel efficiency, or **Sport (S)** Mode for highway driving, enhanced acceleration and consistent power delivery.

## e-BOXER HYBRID AVAILABLE

Our Hybrid platform has been engineered to enhance everything which makes it a Subaru – our legendary All-Wheel Drive, and the Boxer engine's low centre of gravity, all help you take on any terrain, while the Hybrid engine gives you greater fuel efficiency and treads more lightly on this beautiful place we call home.

### SELF-CHARGING

As a self-charging hybrid the e-Boxer collects energy in its compact lithium-ion battery whenever you brake or decelerate. This in turn powers its electric motor, offering greater fuel efficiency.

### ENHANCED DRIVER MODES

With different drive modes like; Electric Only (for an efficient ride), or Motor Assist (for when you need some low-end pep), the electric energy is used to enhance the car to automatically switch modes depending on the terrain it's handling.

## CONNECTIVITY

With an 8" touch screen, the infotainment system comes complete with Apple CarPlay™ and Android Auto™ making device connectivity seamless. Satellite Navigation is also available on selected models.

## SUBARU LINEARTRONIC TRANSMISSION (WITH MANUAL MODE)

Unlike a conventional automatic transmission, which uses fixed gear ratios, we created the world's first longitudinally mounted continuously variable transmission system to complement our unique Symmetrical All-Wheel Drive system. Result? Greater performance and efficiency, with a smoother gear change and optimum gear ratio at every moment in time. (Or flick it to 'manual mode' and use paddles on the steering column to change through preselected gear ratios.)

## SMART KEY AND PUSH BUTTON START

For ultimate convenience, every XV comes with a Smart Key that enables Push Button Start and keyless entry, meaning your key can remain in your bag or pocket when you need to lock or unlock your car.

## 5-STAR SAFETY

For us, safety isn't optional, and it shouldn't be for you either. That's why we've engineered every Subaru to achieve an ANCAP 5-star safety rating, the highest possible.

## SUBARU VISION ASSIST

With driver warnings, extra camera angles, and clever features, Subaru Vision Assist gives you extra confidence whether it's changing lanes, or parking in a tight spot. It features:

- Blind spot monitor
- Lane change assist
- Rear cross traffic alert
- Adaptive driving beam\*
- Side view monitor\*
- Front view monitor\*
- Reverse automatic braking\*

\*Some features are only available on certain models.

WHAT'S UNIQUE  
ABOUT SUBARU XV

## SUBARU XV

### STANDARD FEATURES INCLUDE:

- ✦ 2.0L Direct Injection Engine
- ✦ Symmetrical All-Wheel Drive
- ✦ 7-speed Subaru Lineartronic Transmission (with paddle shift)
- ✦ X-Mode with Hill Descent Function
- ✦ EyeSight® clever crash avoidance technology: pre-collision braking, driver alerts, adaptive cruise control and lane keep assist
- ✦ Electronic Park Brake
- ✦ Auto Vehicle Hold
- ✦ 7 Airbags
- ✦ 17" Alloy Wheels
- ✦ Day Time Running Lights
- ✦ Smart Key & Push Button Start
- ✦ 8" Touch Screen
- ✦ 6.3" LCD Multi-Function Display
- ✦ Apple CarPlay™ & Android Auto™
- ✦ Bluetooth and Voice Recognition
- ✦ USB Charge Port for Rear Passenger (x2)
- ✦ Premium Cloth Upholstery
- ✦ Digital Speedometer
- ✦ Rear Reversing Camera
- ✦ Black Roof Rails
- ✦ Tyre Pressure Monitoring System
- ✦ SI Drive (2 Modes)

## SUBARU XV PREMIUM

### ADDS TO THE FEATURES OF SUBARU XV:

- ✦ Satellite Navigation
- ✦ Reverse Automatic Braking (RAB)
- ✦ 8-way Power Driver's Seat
- ✦ Automatic Folding Door Mirrors (engine off)
- ✦ Reverse Synchronised Door Mirror (passenger side)
- ✦ Front and Side View Monitors
- ✦ Sunroof
- ✦ Heated Front Seats
- ✦ X-Mode Dual Function – Deep snow/mud
- ✦ Leather Upholstery
- ✦ Silver Roof Rails
- ✦ Alloy Pedals
- ✦ 18" Alloy Wheels
- ✦ Blind Spot Monitor
- ✦ Lane Change Assist
- ✦ Rear Cross Traffic Alert
- ✦ High Beam Assist
- ✦ Steering Responsive Headlights
- ✦ Auto Lights and Wipers

# SUBARU XV

e-BOXER  
HYBRID

## STANDARD FEATURES INCLUDE:

- 2.0L Direct injection e-Boxer engine with a 12.3kW electric motor
- Symmetrical All-Wheel Drive
- 7-speed Subaru Lineartronic Transmission (with paddle shift)
- X-Mode with Hill Descent Function
- EyeSight® clever crash avoidance technology: pre collision braking, driver alerts, adaptive cruise control and lane keep assist
- Electronic Park Brake
- Auto Vehicle Hold
- 7 Airbags
- 17" Alloy Wheels
- Auto Lights and Wipers
- Day Time Running Lights
- Smart Key & Push Button Start
- 8" Touch Screen
- Apple CarPlay™ & Android Auto™
- Bluetooth and Voice Recognition
- USB Charge Port for Rear Passenger (x2)
- 6.3" LCD Multi-Function Display
- Cloth Upholstery
- Pedestrian Alert System
- Hybrid Energy Flow Display of Drive Modes
- Flush Mounted Silver Roof Rails
- e-Boxer Hybrid Exterior Badges
