

SWIFT
Sport

BUCKLE UP, AMIGO

SPEED READERS ONLY

This is the fastest brochure you'll ever read.

Because the Swift Sport is all about one thing: speed. And this brochure is about the Swift Sport.

Tons of info. Max adrenaline. High-speed page turns. This is as close to driving the Swift Sport as you can get, both literally and literately. Actually, not literally, because you can easily buy a Swift Sport. It's really affordable.

Okay. Ready? Doesn't matter.

SWIFT SPRT SO FST

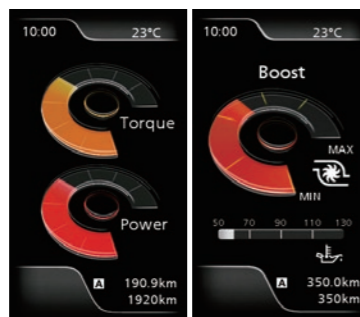

So fast, even the interior's fast.

Multimedia sat nav with Apple CarPlay® and Android Auto™ because getting lost is guaranteed last place.

Keyless ignition to shave seconds off your start.

Ultra-secure steering wheel grip. Obviously.

Even the colours are fast. Black. Red. More black. Red accents. You feel fast just looking at it. But there's no time for feelings. Next page, now.

Multi-information colour LCD

A 4.2-inch colour LCD screen intuitively conveys a useful range of information, such as running performance and engine output.

TUNED TO PERFECTION

We've switched to italics because the forward lean makes italics the fastest of all the fonts, always racing forward like the Swift Sport.

- 1.4 BOOSTERJET turbo engine
- An astounding torque-to-weight ratio
- An 80kg lighter kerb weight producing 230Nm of torque (approximately 4.2kg/Nm), making the acceleration even faster
- 6-speed auto or manual transmission

6-speed Manual Transmission

6-speed Automatic Transmission with Paddle Shift

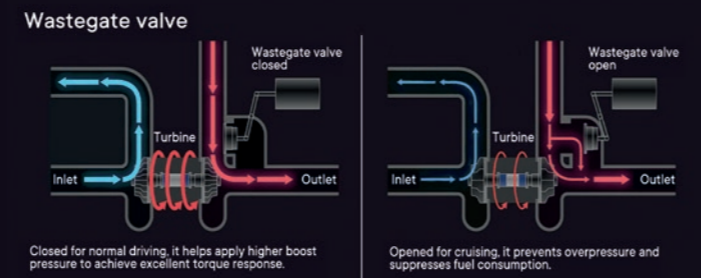

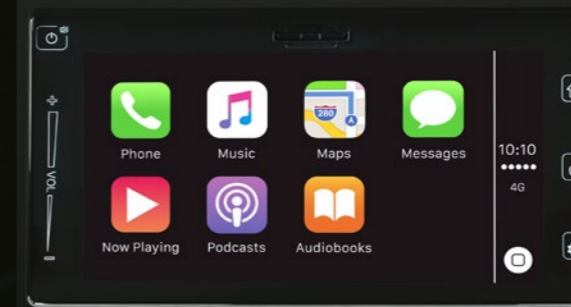

BOOSTERJET Turbo

The Swift Sport's 1.4 BOOSTERJET direct injection turbo engine doesn't just deliver sizzling performance, it also saves on fuel.

7-hole injector nozzles enable higher pressure and atomised fuel injection for more powerful engine output and a cleaner exhaust, while the sophisticated wastegate valve control constantly monitors boost pressure to minimise your fuel consumption while cruising.

Torque-to-weight ratio 4.2KG/Nm	Maximum torque 230Nm/2,500-3,500rpm
Maximum power 103kW/5,500rpm	Fuel consumption (man/auto)* 6.1L/100km

A seven inch touchscreen display enables intuitive operation of multimedia features including audio, hands-free phone, navigation system and smartphone integration. Features can be selected from the four main operating modes — Listen, Call, Drive and Connect. The Smartphone Linkage Display Audio works with both Apple CarPlay® and Android Auto™. By connecting your compatible iPhone via USB, Apple CarPlay® allows you to make phone calls, access your music, send and receive messages, and get directions, all by voice command or a tap on the audio display. Android Auto™ puts Google Maps™, Google™ Search and other Google services at the driver's fingertips in a non-distracting way.

TECHNOLOGY CONNECTIVITY SPEEDTIVITY

Slowing down? Didn't think so. Okay, **important info** is **highlighted** below.

The **faster** you're connected the **faster** you're driving.

So the **7-inch multimedia touch display** gives you **total control**:

- Audio ■ Hands-free phone ■ Navigation system
- Apple CarPlay® for calls, music, messages and directions.
- Android Auto™ connection for Google Maps™, Google™ Search and other Google services

Okay finish line in sight so we're not even gonna finish

*For more details including iPhone models compatible with Apple CarPlay see: <http://www.apple.com/ios/carplay/> Apple, Apple CarPlay and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. <https://support.google.com/androidauto/answer/6348019?hl=en&ref=topic=6140477> Google, Android, Google Play and Android Auto are trademarks of Google LLC. MirrorLink™ is compatible with the smartphones listed at the following link <https://mirrorlink.com/phones> MirrorLink™ is a registered trademark of the Car Connectivity Consortium LLC.

17-inch alloy wheels

The exclusive thin-spoke alloy wheels are crafted using a flow forming technique that enables thinner yet stronger rims for a reduction in unsprung weight that enhances vehicle performance.

16-inch ventilated front disc brakes

15-inch solid rear disc brakes

sentences on the same page.

Think you can handle that? A Swift Sport definitely could.

INCREDIBLE HANDLING

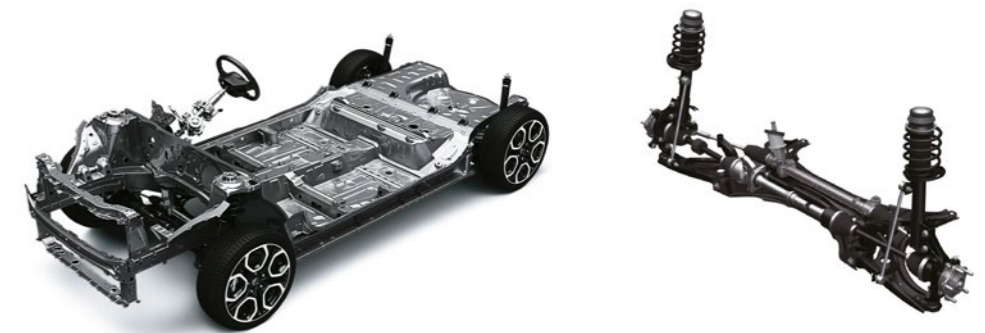

We'll take out the spaces to go faster—

We've improved steering control at all speeds. And refined suspension for optimum roll rigidity and more sensitive road-to-driver feedback.

Okay, turns out taking out the spaces between words actually slows you down. But the good news is, the Swift Sport can also slow down. It's got excellent brakes that have been updated to handle the extra power and speed.

The powertrain is also lighter and more rigid, unleashing energy more efficiently to enhance safety in a collision.

A redesigned suspension, both up front and in the rear, underpins a nimble and emotion-heightening driving experience, providing both the linear steering control for which Swift is known and ride quality that is solid, yet supple and comfortable. Tracking performance and response, for better negotiating turns and curves, and straightway stability have been sharpened for even greater joy in driving Swift.

*Monroe® is a registered trademark of Tenneco Automotive.

Okay, we're struggling to keep up with Swift Sport.

So: less words, and shorter, much faster.

IT COMFY

Bucket front seats. Red bits. Lateral support.

Best materials. Feel good. Look nice.

Back seats fold. Smart room! Lots space!

The only thing that can match the speed of the Swift Sport is the safety of the Swift Sport. Actually, they tie.

Add in 6 airbags and ESC (Electronic Stability Control for slow), and the Swift Sport earns a 5-star ANCAP rating. That's first place in safety.

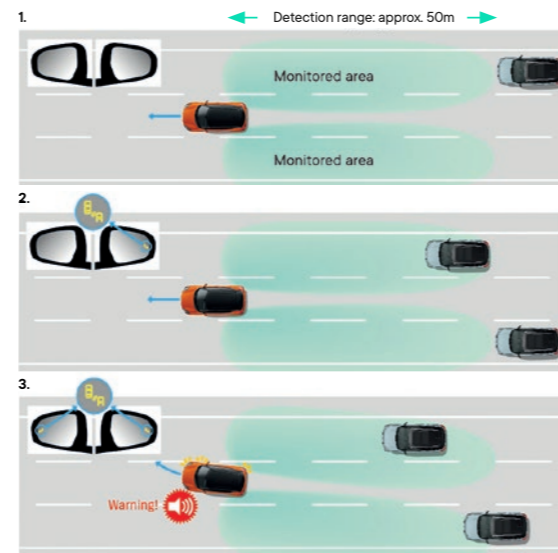

Add in 6 airbags and ESC (Electronic Stability Control for slow), and the Swift Sport earns a 5-star ANCAP rating. That's first place in safety.

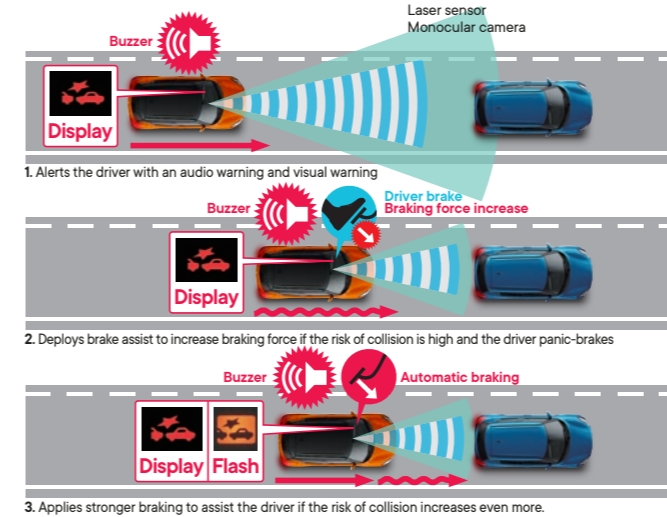

At speeds of up to 8 km/h whilst in reverse, the vehicle uses two rear mounted side radar sensors to assist the driver by alerting them of approaching vehicles on either side of the vehicle when reversing out of car parking spaces. If a vehicle is detected, the driver is given both a visual alert on the multi information display and a warning sound alert. This assists the driver to manoeuvre more safely out of parking spaces where vision is obscured on either or both sides of the vehicle.

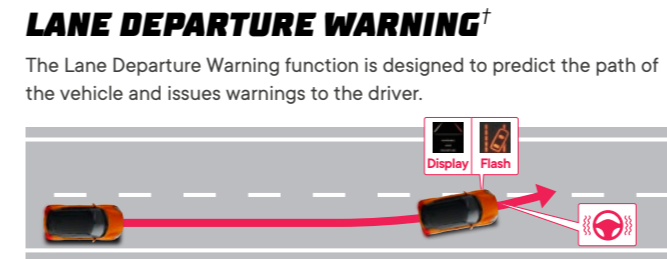

Lane changing at speeds above 15 km/h is made safer by two rear mounted side radar sensors capable of detecting vehicles located in or approaching the rear blind spots on either side of the vehicle. When a vehicle is approaching or detected in a rear blind spot, a warning LED icon is illuminated in the relevant exterior mirror. If the driver indicates to change lanes, a flashing LED icon is accompanied by a warning sound alert.

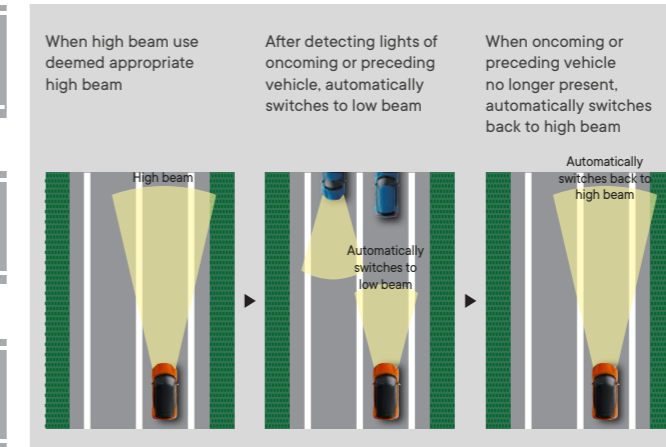

An Advanced Forward Detection System uses the combination of a monocular camera, laser sensors and millimetre-wave radar to detect the distance from a forward vehicle, with the aim of helping the driver avoid a collision or helping to mitigate damage from a collision*. The advanced forward detection system includes:

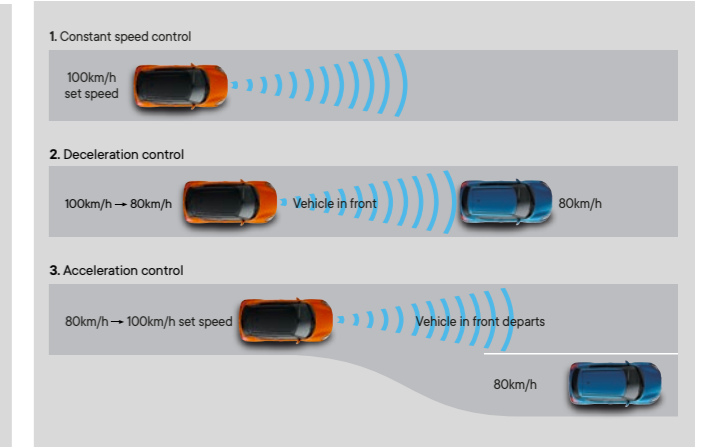

When moving, the Swift uses two sensors—a monocular camera and a laser sensor—to determine if there is a risk of collision with a forward vehicle or pedestrian.

High Beam Assist is designed to automatically switch the headlights between “High” and “Low.”

When there is a vehicle in front, the Adaptive Cruise Control system uses millimetre-wave radar designed to gauge the distance to it and automatically maintains vehicle-to-vehicle distance in line with the setting selected out of three possible settings.

*When the vehicle is equipped with both millimetre-wave radar and the combination of a monocular camera and laser sensor, the monocular camera and laser sensor govern the collision mitigation brakes and the millimetre-wave radar is used for the ACC function. *AEB is designed to support the driver only in emergency situations. The driver remains responsible for the vehicle at all times. †The lane departure warning and weaving alert only function when the vehicle is moving at speeds of approximately 60km/h or higher. ‡Vehicle-to-vehicle distance varies depending on vehicle speed.

SWIFT Sport

SWIFT SPORT

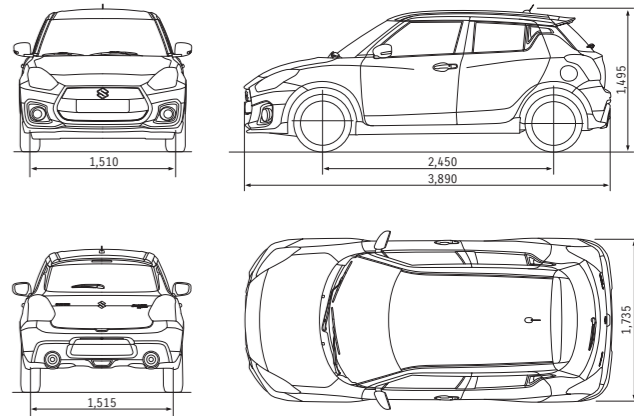

- 1.4L BOOSTERJET turbo engine
- 6.1L/100km fuel economy*
- 6-speed manual transmission or 6-speed automatic with paddle shifters
- 7-inch multimedia touchscreen with satellite navigation, Apple CarPlay® and Android Auto™
- Bluetooth® & iPod® USB connectivity with steering wheel audio controls and voice control
- Reverse camera
- Adaptive cruise control
- Digital climate control
- Digital speedometer
- Keyless start and entry
- Semi-bucket seats with red stitching and embossed *Sport* logo
- D-shaped steering wheel
- 60:40—split rear seats
- Six airbags
- ESC, ABS, EBD, & BA
- Autonomous emergency braking#
- Lane departure warning
- Weaving alert
- High beam assist
- Blind spot monitoring
- Rear cross traffic alert
- Reverse parking sensors
- 17" alloy wheels
- Daytime running lights
- Front fog lights
- Automatic LED headlights
- Privacy glass
- Electronically-folding heated door mirrors
