 **SUZUKI**

No other compact 4x4 has the features, the heritage, or the experience. With its rigid ladder frame, high ground clearance and ALLGRIP PRO drive system, the Jimny stays true to its origins of offering uncompromising off-road ability. For more than 50 years it has been carving out a reputation as one of the toughest, most tenacious off-roaders out there.

Who else can live up to the legend?

ONLY JIMNY.

Capable in the extreme

There are key features that define a true off-road machine. The Jimny concentrates them into a compact package that's tough enough to take on the harshest conditions and most extreme environments New Zealand has to offer. Lightweight and seriously capable, the Jimny is equipped with Suzuki's ALLGRIP PRO system and a full ladder chassis allowing you to get into the heart of the wilderness.

RIGID LADDER FRAME

Continuing from the very first generation, the Jimny features a robust ladder frame for everyday comfort on the road, and solid driving stability off the road.

3-LINK RIGID AXLE WITH COIL SPRING SUSPENSION

When you want to take on the rough stuff you need full-width rigid axles in both the front and rear. As an obstacle pushes one wheel up, the axle presses the other wheel down to increase tyre contact and traction. Whatever lies in your path – mud, loose rocks, slippery roots, Jimny's go-anywhere ability is legendary.

Departure angle

Ramp breakover angle

Approach angle

Ground clearance

AMPLE BODY ANGLES AND CLEARANCE

The Jimny lets you explore to the limit with generous approach, ramp breakover, and departure angles. Its high ground clearance lets you take on the steepest slopes, sharpest descents and gnarliest obstacles without scraping or catching.

PART TIME 4WD WITH LOW RANGE TRANSFER GEAR

On-road. Off-road. No road. The Jimny has the torque and traction for every situation. On paved surfaces, 2H (2WD) mode offers a smooth, quiet ride with maximum fuel-efficiency. On flat dirt roads or in the snow 4H gives you 4WD traction combined with higher speeds. When the going gets really tough there's 4L mode for maximum torque and traction. With ALLGRIP PRO you gain maximum traction for any situation. Jimny gives you true on and off-road mastery.

Power to go anywhere

Push it, punish it and take it to extremes. The Jimny has the unrivalled agility, precision control and power you need to get to the wildest places and back again safely. With dogged determination, tenacious torque and shedloads of grunt, Jimny is built so you can depend on it.

BRAKE LSD TRACTION CONTROL

Cover slippery ground with confidence. If two diagonal wheels lose grip while on slippery surfaces, the limited-slip differential traction control automatically brakes the slipping wheels and redistributes torque to the other two wheels, allowing the Jimny to continue safely.

HILL HOLD CONTROL

Move upward and onward when starting on steep slopes. Even on bumpy slopes that vary side-to-side, this feature helps prevent rolling rearwards so you can focus on controlling acceleration.

HILL DESCENT CONTROL

On tricky descents, with a push of the button, the brakes will automatically apply to maintain a fixed speed so you can concentrate on steering without using the brakes or clutch.

1.5L K15B

The heart of the Jimny is a robust 1.5L power plant designed for strong torque through a wide rpm range for gutsy off-road performance. Lightweight and compact, the engine delivers outstanding power with high fuel-efficiency.

Power: 75 kW **Torque:** 130 Nm

Fuel: 6.4-6.9 L/100 km combined NEDC

4-STAGE AUTOMATIC

The smooth-shifting electronic automatic transmission makes driving effortless on-road, and allows the driver to concentrate on driving when in challenging situations (Sierra).

5-SPEED MANUAL

The chunky shift lever controls 5 gears carefully chosen to maximise the performance characteristics of the engine, giving driving control under all conditions.

Purposeful. Practical. Professional.

The Jimny's interior is modern and comfortable, with rugged surfaces, flat-folding rear seats and plenty of storage space. The stylish, practical dash provides connectivity, entertainment and information at your fingertips, designed to keep you focussed on serious off-roading or the urban melee without distraction.

7-INCH INFRARED TOUCHSCREEN

Even while wearing gloves, enjoy easy fingertip command of the infotainment system on the high-mounted infrared touchscreen. Explore afar with easy access to maps on the built-in satellite navigation system (Sierra).

BLUETOOTH® AND USB

Bluetooth® lets you connect wirelessly to your music and contacts on your smartphone. You can answer calls while you're travelling or change tracks without taking your hands off the wheel. You can also connect your smartphone or device via USB.

APPLE CARPLAY®

Make phone calls, access your music, send and receive messages, and get directions using voice command or touchscreen (Sierra).

ANDROID AUTO™

Puts Google Maps™, Google Search™ and other Google services at your fingertips (Sierra).

CLIMATE CONTROL AIR CONDITIONING

A high-contrast LCD display makes it easy to set the automatic air conditioning to your preferred comfort level (Sierra). There's even a special pollen filter that removes dust and other particles so you can breathe easy.

CRUISE CONTROL AND SPEED LIMITER

Cruise control adds to your comfort by maintaining a consistent speed. The speed limiter allows you to set a maximum speed for safe driving.

SPACE TO FILL

Be packed and ready for every possibility. Convenient pockets and holders keep your smartphone, beverages, and personal items close at hand. The expansive rear floor and seatbacks are resin-coated for easy cleaning and a rear power socket lets you use power tools and appliances.

Go safely and explore

Safety is important whether you're commuting in the city or slogging it out in the middle of nowhere. The Jimny offers the protection of 6 SRS airbags and the added confidence of ESP® (Electronic Stability Programme). There's also Suzuki Safety Support - a suite of preventative safety features designed to detect potential accidents and help avoid them.

LANE DEPARTURE WARNING

The Jimny helps you stay on track. Should you unintentionally stray from your lane while driving at 60km/h or faster, this feature is designed to vibrate the steering wheel and issue a visual warning to encourage safer driving.

WEAVING ALERT

This system calculates your driving pattern and issues audio and visual warnings if it detects you're 'wandering' due to driver fatigue, for example.

HIGH BEAM ASSIST

At 40km/h or faster, Jimny's high beam assist can automatically switch the headlights between high and low beam depending on the presence of other vehicles and the lighting environment.

After detecting lights of oncoming or preceding vehicle

When oncoming or preceding vehicle no longer present

DUAL SENSOR BRAKE SUPPORT (DSBS)

The Jimny features a forward detection system using a monocular camera and a laser sensor attached to the windshield. The monocular camera excels at mid-to-long distance detection and pedestrian recognition while the laser sensor excels at short distance and night-time detection.*

6 AIRBAGS

Jimny features six airbags for the driver and passenger seats including SRS front, side, and curtain airbags for safety and protection.

1. Alerts the driver with an audio warning and visual warning.

2. Deploys brake assist to increase braking force if the risk of collision is high and the driver panic brakes.

3. Applies strong automatic braking if the risk of collision increases even more.

*Please do not rely on the monocular camera and laser sensor. It is only an aid and the ability to detect obstacles and lanes, and control the vehicle is limited. Always drive safely.

A little goes a loooooong way

In a new Suzuki, your smile will be stuck on high beam as you zip around. You may even let out a giggle, or wave when you spot another.

Not only are Suzuki cars and SUVs fuel efficient – they are affordable, safe and sooooo much fun to drive. With our advanced small engine technology and innovative design, you'll get loads of value without compromising performance, and as New Zealand's most fuel-efficient mainstream automotive brand,* a little really does go a long way.

So turn every journey into a joyride with Suzuki. Let us help you find the one that suits your lifestyle and needs, with an ownership experience second to none.

*2021 NZTA result for top 10 vehicle manufacturers.

Supporting our community

We support those things Kiwis care about; the organisations and worthy causes making a difference to New Zealand lives. Suzuki is honoured to get behind these passionate people and fun events which make a difference in our community.

WHĀNAU ĀWHINA PLUNKET

Whānau Āwhina Plunket is Aotearoa's largest support service for the health and wellbeing of tamariki under-five and their whānau. They see around 85% of all newborn babies and provide free health and development checks, a 24/7 parenting helpline, and a range of local services. Support staff and nurses use a combination of Swift Hybrid and S-Cross vehicles for home visits and other business.

LEUKAEMIA & BLOOD CANCER NZ

With a vision to cure and a mission to care, this amazing organisation works tirelessly helping everyday Kiwis come to terms with leukaemia, lymphoma, myeloma and related blood conditions. Last year, the frontline support services team covered more than 50,000 kilometres in their brightly coloured Suzuki Balenos and Swifts; providing patients, their family and friends with emotional and practical support.

AA DRIVING SCHOOL

With over 1.5 million members the AA is New Zealand's largest automobile club. Their driving school is one of the most respected in the country and includes programmes for drivers of all levels. Thousands of kiwis have learnt to drive or improved their skills in the school's fleet of modified dual control Swifts. Swift's 5-star safety, agility and easy handling make it the perfect choice for learners.

MAKING DRIVERS SAFER

To help make our roads safer for everyone, Fleetcoach has developed a virtual driver training programme for employers to identify, train and upskill their staff. State-of-the-art interactive videos put drivers behind the wheel of a Suzuki, allowing them to identify driving hazards and improve their road safety skills online.

REAL VALUE

Real Value isn't just about sharp pricing, it's about worry-free enjoyment of your new Suzuki and protecting its on-going value.

5 YEAR WARRANTY PACKAGE

A comprehensive 3 year/100,000 km new vehicle warranty. This covers your entire vehicle for the most important part of its lifecycle and includes a 2 year powertrain warranty extension for a total of 5 years worry-free motoring.

5 YEAR SUZUKI ASSIST

This is one of New Zealand's most comprehensive roadside assistance programmes. It has you covered all day, every day for 5 years from when you first buy your Suzuki – no matter how many kilometres you travel.
