Join the  
revolution

Fresh, bold and different. Camry, Australia's favourite mid-size sedan, is designed, engineered and built to prove that everyday excellence can be truly exciting.

Beneath its dynamically balanced and athletic exterior lines, you'll find Camry is underpinned by Toyota's advanced New Global Architecture (TNGA), delivering heightened levels of comfort

and driving performance. This universal design excellence is matched with the intelligence of the latest technology and safety features, including Toyota Connected Services<sup>1</sup> (TCS) to help keep you connected and provide assistance in the case of an emergency.

Once within the luxurious interior, you'll quickly discover why Camry is redefining standards

and elevating the expectation of what modern comfort should be.

Under the sculptured bonnet you can choose from the latest generation Toyota Hybrid system that delivers an impressive 160kW of combined power on all grades, or the performance of a 2.5L 4-cylinder petrol engine only available on Camry Ascent.

# The shape of brilliance

Sleek and seductive, the eye-catching exterior of Camry seamlessly blends brilliance into beauty.

Centred upon Toyota's acclaimed New Global Architecture (TNGA), Camry is designed to not only heighten the senses, but also deliver a total driving experience.

As well as being aerodynamically efficient, the low, angular bonnet line is designed to provide clear visibility for the driver. It's broad on-road

stance and dynamic grille express strength and stability that flows effortlessly into the tapered rear bumper and extended rear combination lamps.

More than elegant, the stylish lines of Camry's lightweight body hide a highly rigid frame that's paired with double wishbone rear suspension to deliver responsive handling and precise steering. The advanced exterior design also improves the quality and comfort of the drive.

Sitting beneath the distinctive wheel arches, stylish 17" alloy wheels are fitted as standard, rising to 18" alloys on SL, and 19" on SX grades. Plus the glass panoramic roof on SL variants opens yet another dimension of luxury and pure driving pleasure.

# Pure comfort and connection

Step aboard, and you'll quickly appreciate the ergonomic comfort, effortless style and intelligence of Camry.

Enter and start Camry while the key remains in your pocket or bag with the smart entry and start system on Ascent Hybrid, Ascent Sport, SX and SL.

Every Camry features the added safeguard of Toyota Connected Services<sup>1</sup> (TCS) with myToyota Connect<sup>1</sup> app access. TCS uses a built-in SIM and sensors to help keep you connected in the case of an emergency, with the peace of mind of Stolen Vehicle Tracking<sup>3,4</sup> (SVT), the added security of Automatic Collision Notification<sup>3,5</sup> (ACN), and a one-push SOS Emergency Call.<sup>3,6</sup>

The superb sound in Camry SL is thanks to the 9-speaker audio system with 9" colour touchscreen display with seamless connectivity to Apple CarPlay<sup>®7,8</sup> and Android Auto<sup>™,7,9</sup> (speak to your Dealer about device compatibility). It also includes Bluetooth<sup>®10</sup> connectivity, voice recognition and USB<sup>11</sup> inputs as well as satellite navigation and SUNA<sup>™,12</sup> traffic channel updates.

The 7" colour Multi Information Display (MID) on Ascent Sport, SX and SL provides real-time trip, road and vehicle data information including fuel consumption, satellite navigation directions, audio settings and vehicle monitoring data. The 4.2" MID on Ascent also displays a selection of essential trip, vehicle and audio detail, all with fingertip control.

The Head-Up Display (HUD) on Camry SL projects driving information and important warnings onto the bottom of the windshield.

On all grades, the single touch Electronic Park Brake adds an extra level of convenience, and when backing into spaces the reversing camera<sup>13</sup> helps provide a clear view of what's behind.

Whatever the weather outside, the air conditioning will maintain perfect comfort inside Camry through dual-zone automatic climate control for Ascent Hybrid, Ascent Sport, SX and SL.

- A Paddle shift controls – SX and SL only
- B Smart start engine button – Ascent Hybrid, Ascent Sport, SX and SL only
- C 9" colour touchscreen display – available in Ascent Sport, SX and SL. SL grade shown
- D Dual-zone automatic climate control – Ascent Hybrid, Ascent Sport, SX and SL only
- E 60/40 split fold seats

# The power to thrill

The sporty Camry SX is a refined thoroughbred developed purely for those seeking to elevate their driving experience.

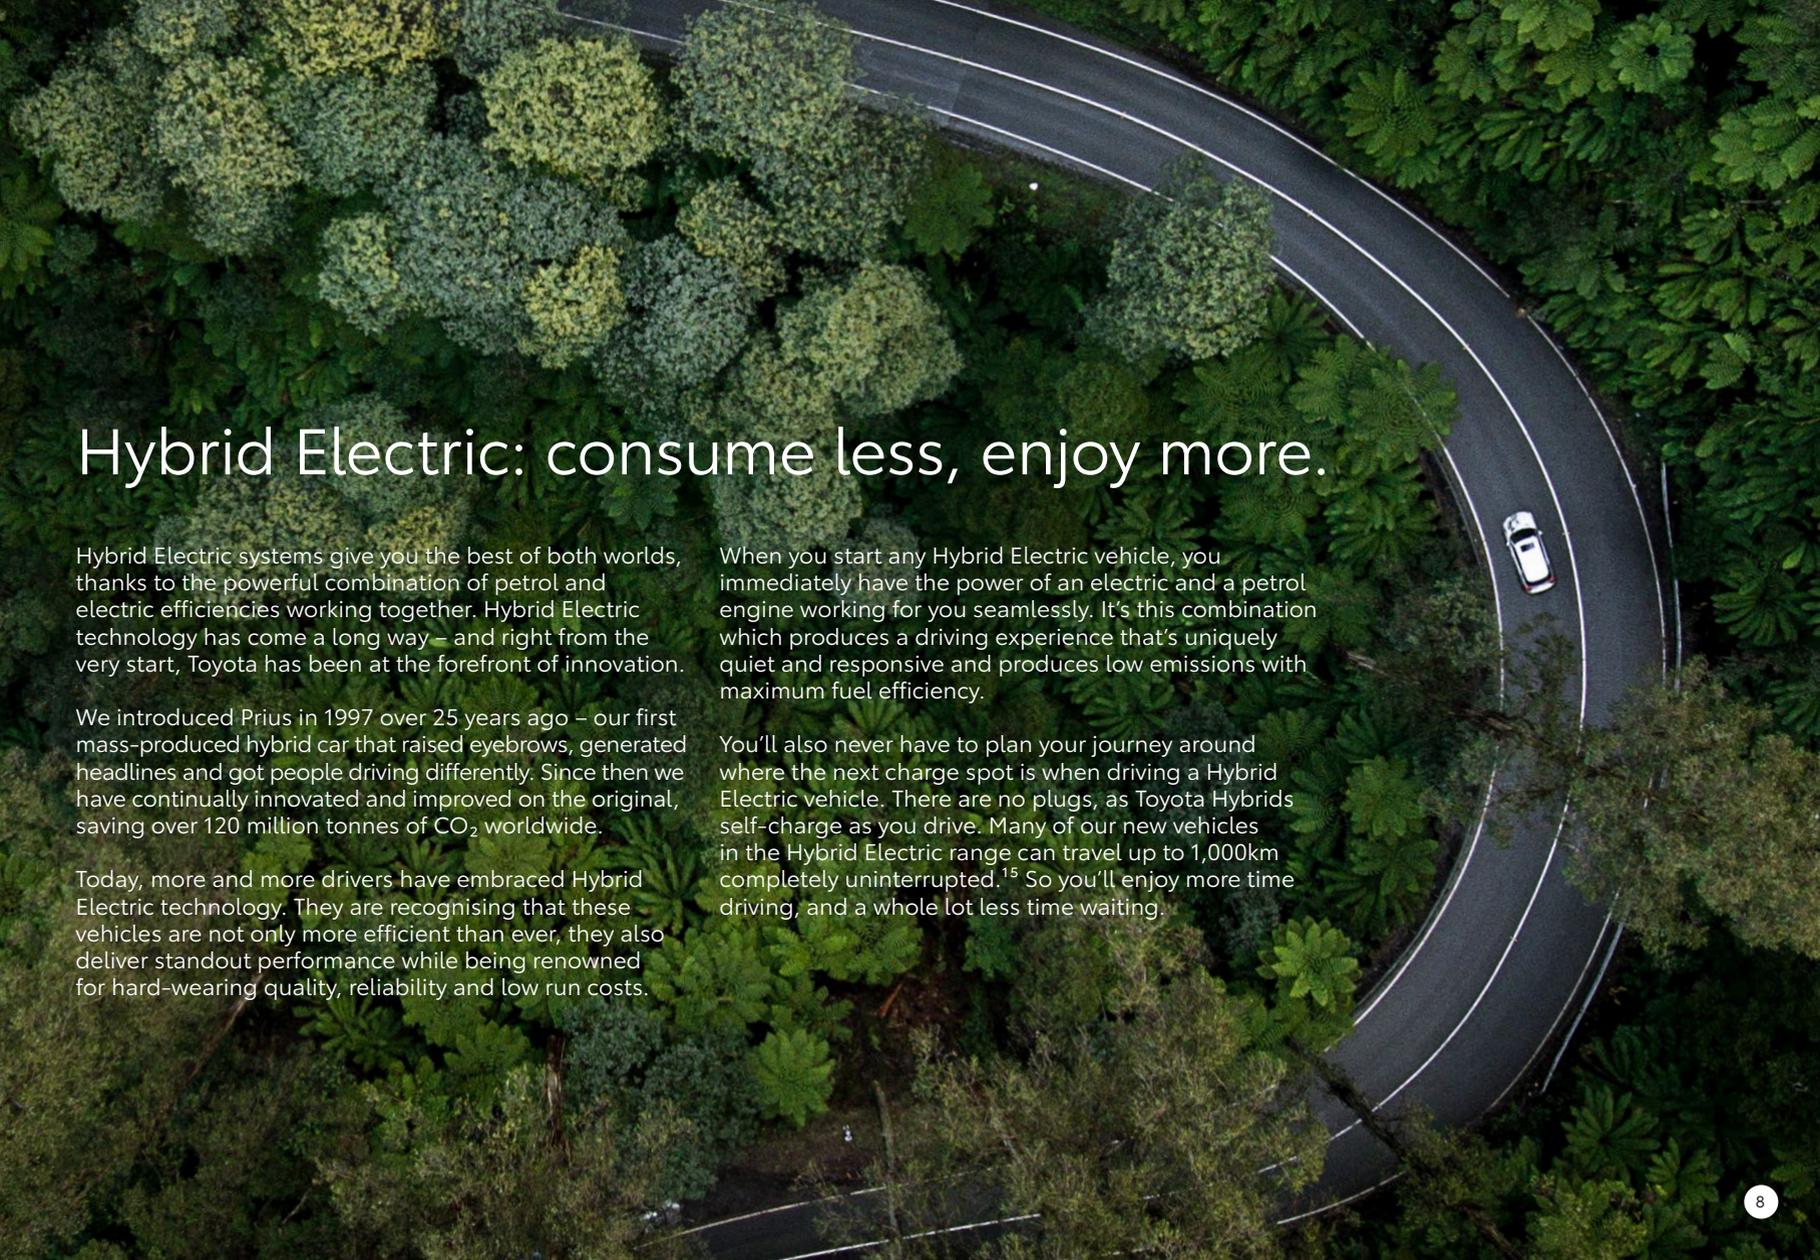

From the prominently flared front end with side fins, to the powerful rear spoiler tipped tail, this is every part a performance machine designed and engineered to thrill.

Its sports tuned suspension provides livelier handling and is paired with 19" alloy wheels that feature V combination spokes with accentuated edges and a dark finished surface, all this is rounded off with premium Dunlop<sup>®14</sup> SP Sport tyres.

The latest generation 2.5L VVT-iE Toyota Hybrid System produces 160kW of highly responsive power to deliver sporty performance through the Continuously Variable Transmission (Auto CVT), making it seriously fun to drive.

The Camry SX is further enhanced with a honeycomb mesh grille to complement its athletic stance. The dynamic design cues continue inside with red or black leather accented sports seats that are sculptured to provide extra support and comfort.

Camry SX. Ready to excite, when you are.

# Hybrid Electric: consume less, enjoy more.

Hybrid Electric systems give you the best of both worlds, thanks to the powerful combination of petrol and electric efficiencies working together. Hybrid Electric technology has come a long way – and right from the very start, Toyota has been at the forefront of innovation.

We introduced Prius in 1997 over 25 years ago – our first mass-produced hybrid car that raised eyebrows, generated headlines and got people driving differently. Since then we have continually innovated and improved on the original, saving over 120 million tonnes of CO<sub>2</sub> worldwide.

Today, more and more drivers have embraced Hybrid Electric technology. They are recognising that these vehicles are not only more efficient than ever, they also deliver standout performance while being renowned for hard-wearing quality, reliability and low run costs.

When you start any Hybrid Electric vehicle, you immediately have the power of an electric and a petrol engine working for you seamlessly. It's this combination which produces a driving experience that's uniquely quiet and responsive and produces low emissions with maximum fuel efficiency.

You'll also never have to plan your journey around where the next charge spot is when driving a Hybrid Electric vehicle. There are no plugs, as Toyota Hybrids self-charge as you drive. Many of our new vehicles in the Hybrid Electric range can travel up to 1,000km completely uninterrupted.<sup>15</sup> So you'll enjoy more time driving, and a whole lot less time waiting.

# The Hybrid System

## Four Key Benefits

Toyota's latest Hybrid Electric technology gets you moving powerfully and smoothly every time. Enjoy an uncompromising drive with responsive, dynamic performance.

## Further

There's no need to plug in a Toyota Hybrid. Electricity is created as you drive, capturing energy when you brake or slow down. This power is then stored away, ready to be used later in the hybrid battery.

## Reliable

Toyota's Hybrid Electric System offers the reliability and quality you can always expect from Toyota. It's technology that's been tested and trusted for over 25 years – so no matter where you go, you'll have peace of mind in every drive.

## Powerful

Experience an uncompromising drive in a Toyota Hybrid Electric with responsive, dynamic performance. You get impressive off-the-line torque that gets you moving powerfully and smoothly every time.

---

## Starting off

The electric motor is used primarily and power stored in the battery is used to turn the motor.

## Full acceleration

When accelerating or cruising at speed, the petrol engine turns on automatically in addition to the electric motor. Ensuring you receive the power and responsive performance you need.

## Braking and deceleration

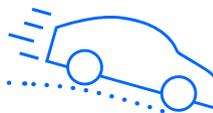

The electric motor generates power when braking and slowing down, charging the battery. No fuel is used, so there are minimal CO<sub>2</sub> emissions.

## Normal driving

A mix of petrol and electric power is used for best economy, depending on the conditions. The battery is recharged where possible.

## At rest

With the car brought to a stop, the petrol engine cuts off. The system automatically avoids idling to conserve fuel and reduce CO<sub>2</sub> emissions.

# Sophisticated strength

The Camry revolution puts the power into your hands. With a choice of two different engines, you'll be sure to find the right strength to match your sophistication.

The 2.5L 4-cylinder Hybrid engine is available on all Camry grades and features reimagined hybrid power and efficiency. It seamlessly matches the response of a Dual VVT-i (Variable Valve Timing with intelligence) petrol engine and Toyota Hybrid System technology to deliver an impressive 160kW of combined power with enhanced fuel economy.

The 2.5L 4-cylinder petrol engine is available on Camry Ascent and incorporates lightweight design to deliver high performance with 152 kW of power. The Dual VVT-i (Variable Valve Timing with intelligence) petrol engine optimises the intake and exhaust timing to realise excellent response and lower emissions.

# Safety by design

Safety sits at the very heart of the Camry DNA.

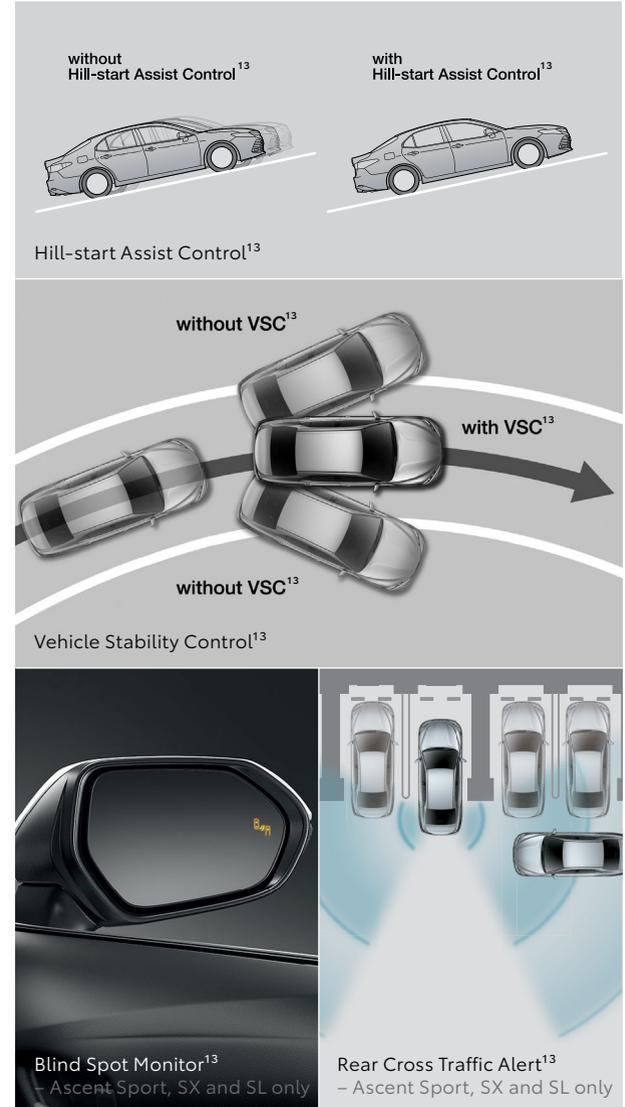

It starts with a body structure specifically designed to improve protection for everyone inside. The driver and passengers are surrounded by the safety of seven SRS airbags fitted as standard.

On steep slopes, Hill-start Assist Control<sup>13</sup> (HAC) can help you to start moving forward safely, while Vehicle Stability Control<sup>13</sup> (VSC) is designed to counteract any over or under steer when cornering on slippery surfaces.

When parking or manoeuvring in tight places, the front and rear clearance sensors on Ascent Sport, SX and SL help guide you with an audio alert. On the open road, Dynamic Radar Cruise Control with Road Side Assist<sup>13</sup> (RSA) is fitted on all grades and helps maintain a constant distance from the vehicle in front, as well as helping maintain the correct speed in accordance with the speed limit displayed on road side signs.

In Ascent Sport, SX and SL, Blind Spot Monitor<sup>13</sup> (BSM) uses radar to detect vehicles in blind spots and issue a warning through an indicator in the outer rear view mirror. When backing up, Rear Cross Traffic Alert<sup>13</sup> (RCTA) uses the same sensors to detect vehicles approaching from either side and issues an audio and visual alert for the driver.

The added benefits of Toyota Safety Sense<sup>13</sup> actively assist the driver to help avoid accidents and reduce damage in the unlikely event of a collision.

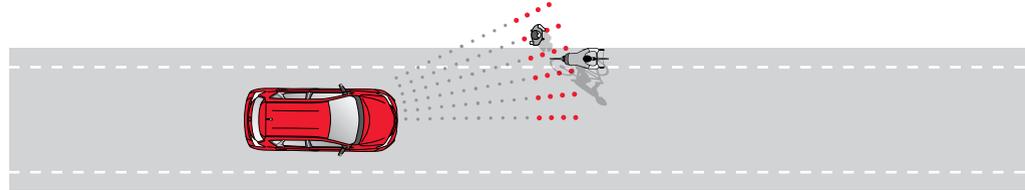

# Toyota Safety Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense<sup>13</sup> (TSS). A suite of active safety features designed to protect us all through helping support safe driving.

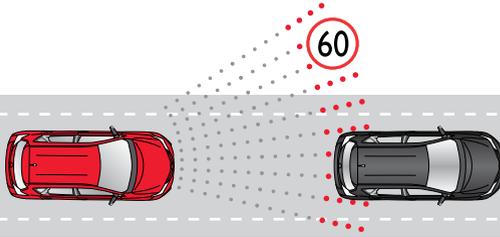

Camry features the TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Camry Active Safety features differ by grade, please visit [toyota.com.au](http://toyota.com.au) for vehicle and specification information.

## Pre-Collision Safety (PCS) system with pedestrian and daytime cyclist detection

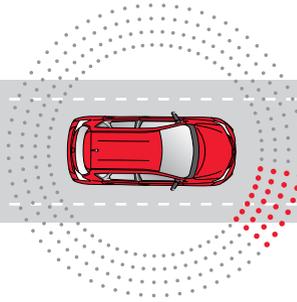

Pre-Collision Safety system with pedestrian and daytime cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the day time. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable automatic braking to help mitigate impact.<sup>13</sup>

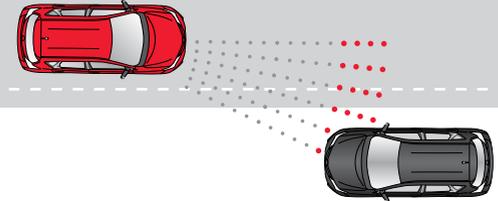

## Dynamic Radar Cruise Control with Road Sign Assist (speed signs only)

Dynamic Radar Cruise Control with Road Sign Assist is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance. It also has the added benefit of helping maintain the correct speed in accordance with the speed limit displayed on road side signs.<sup>13</sup>

## Lane Departure Alert with steering assist

Lane Departure Alert with steering assist is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. It may also apply additional steering force if needed, to help you stay in your lane.<sup>13</sup>

## Automatic High Beam

Using a camera to sense either approaching headlights or the tail lights ahead, Automatic High Beam is designed to help you maintain safe and considerate driving by switching between high and low beam as needed.<sup>13</sup>

# Toyota Connected Services<sup>1</sup>

• • • • •

## 3 years complimentary access

Driving should be easy, enjoyable and safe. That's why inside every connected Toyota you'll find a suite of advanced features focused on safety, convenience and a better driving experience.

To learn more, please visit [toyota.com.au/connected](http://toyota.com.au/connected)

## myToyota Connect<sup>1</sup>

In a world driven by information, the myToyota Connect app allows you to seamlessly integrate your smartphone with Toyota Connected Services. You can receive diagnostic details including the odometer and fuel level, as well as access to your Owner's Manual. You can also see travel details,<sup>2</sup> such as time and distance on the road plus the last known location and parking spot.

## Automatic Collision Notification<sup>3,5</sup> (ACN)

Every second counts when assistance is needed the most. Should an airbag deploy or a severe collision be detected by the impact sensors, Toyota Automatic Collision Notification (ACN) is designed to automatically connect with our 24/7 Toyota Emergency Assistance call centre. If you're unable to communicate or respond, we'll immediately contact emergency services and direct them to your vehicle's location.

## Stolen Vehicle Tracking<sup>3,4</sup> (SVT)

Should the unthinkable unfortunately occur, you'll have the peace of mind of knowing Toyota Stolen Vehicle Tracking (SVT) is designed to help find your missing vehicle. After filing a stolen vehicle report to the police, and providing your VIN and police report number to a Toyota Stolen Vehicle Assistance agent, the agent will validate your SVT subscription and initiate tracking. They can then provide updates to the police to assist with the potential recovery of your vehicle.

## SOS Emergency Call<sup>3,6</sup>

If the situation ever arises where you require urgent assistance, it's comforting to know help can be available at the touch of a button. In the event of a genuine emergency, you can speak directly to a Toyota Emergency Assistance agent, 24/7, simply by pressing the dedicated SOS button in your vehicle. If required, they can direct emergency services to your vehicle's location.

# Camry Ascent

Ascent Hybrid shown

- 2.5L Dual VVT-i 4-cylinder petrol engine
  - 8-speed automatic transmission – petrol only
  - 17" alloy wheels

# Keep your Camry in its prime

Equip your Camry with Toyota Genuine Accessories,<sup>18</sup> designed to perfectly complement its flowing lines and make it even more enjoyable to drive.

Choose from a range of sporty accessories, including mudguards and a tinted bonnet protector, or add practical additions such as durable scuff plates and headlamp covers, to help protect your Camry and keep it looking as stylish as ever.

To find out more, visit [toyota.com.au/camry](https://toyota.com.au/camry)

Camry Ascent in Glacier White shown accessorised with Toyota Genuine weathershields (left hand and right hand sold separately), rear bumper protection plate, rear parking sensors and tow bar, tow ball and trailer wiring harness.<sup>19</sup> All accessories sold separately.

Camry SL Hybrid in Lunar Blue shown accessorised with Toyota Genuine headlamp covers, tinted bonnet protector, slimline weathershields (set of 4) and mudguards. All accessories sold separately.

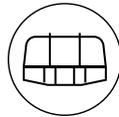

- A Bonnet protector – tinted
- B Headlamp protectors
- C Bonnet protector – clear
- D Rear bumper protection plate
- E Slimline weathershields – set of 4
- F Parking sensors<sup>13</sup> – front corner
- G Scuff guard
- H Dash camera
- I Parking sensors<sup>13</sup> – rear
- J Tow bar, tow ball and trailer wiring harness<sup>19</sup> – sold separately

# Unlock it all

When you join the Toyota family, you get so much more than a new car feeling. You unlock a whole range of benefits to keep you moving now and well into the future.

Discover your Toyota lifetime of advantages at [toyota.com.au/owners](https://toyota.com.au/owners)

## Toyota Genuine Accessories<sup>20</sup>

Developed alongside the vehicle, this unique advantage allows Toyota to design accessories, so they integrate harmoniously with the vehicle structure and safety systems. For more information, visit [toyota.com.au/accessories](https://toyota.com.au/accessories)

## Toyota Service Advantage<sup>21</sup>

We'll keep the cost of your standard logbook service at a capped price for up to your first 3 or 5 years on the road, depending on the vehicle model. To find out your low capped service price, visit [toyota.com.au/owners/service/service-pricing-calculator](https://toyota.com.au/owners/service/service-pricing-calculator)

## Toyota Genuine Insurance<sup>22</sup>

With Toyota Genuine Insurance you're not alone. Over 350,000\* Toyota owners have made the same choice because they know their Toyota's in safe hands. For more information, visit [toyotainsurance.com.au](https://toyotainsurance.com.au)

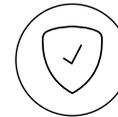

## Toyota Access

Offering flexible finance options, lower monthly repayments<sup>23</sup> and a Guaranteed Future Value,<sup>24</sup> a Toyota Access Loan means you can drive the Toyota you want today, knowing the future is taken care of. When your loan ends, you have options to trade, keep or return your vehicle. For more information, visit [toyota.com.au/toyota-access](https://toyota.com.au/toyota-access)

## Toyota Certified Pre-Owned Vehicles

Enjoy the reassurance that comes with a Toyota Certified Pre-Owned Vehicle. Including an additional 1-year Toyota-backed warranty,<sup>25</sup> full-service history and 90-point inspection by Toyota Technicians. For more information, visit [toyota.com.au/certified](https://toyota.com.au/certified)

## Toyota Warranty Advantage<sup>26</sup>

Stick to your service schedule, and we'll extend your engine and driveline warranty from five to seven years, so you can drive stress-free for longer. For more information, visit [toyota.com.au/owners/warranty](https://toyota.com.au/owners/warranty)

# Disclaimers and Notice

- 1 Connected Services complimentary period ends 3 years from delivery date. Fees may apply thereafter. See [toyota.com.au/connected/plans-packages](https://toyota.com.au/connected/plans-packages). Not available outside Australia, if services disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Dependent on 3G/4G enabled DCM, GPS signal strength, mobile network coverage and other factors outside Toyota's control which can limit ability or functionality of system. Requires compatible device and app installation, third party info and mobile data. Mobile usage at user's cost. Check [toyota.com.au/connected](https://toyota.com.au/connected) or your Owner's Manual for explanation of limitations. Features subject to change. Please drive safely.
- 2 Recent trips and drive pulse process may take up to 48 hours to appear in the myToyota Connect App. For more details, see [toyota.com.au/connected/driving-insights/recent-trips-drive-pulse](https://toyota.com.au/connected/driving-insights/recent-trips-drive-pulse)
- 3 Driver assist feature only. Not a substitute for safe driving practices. Dependent on operational related components and other factors outside Toyota's control which can limit ability or functionality of system. Check your Owner's Manual for explanation of limitations. Please drive safely.
- 4 SVT – Owner/driver required to obtain Police report. Dependent on sufficient battery power. Vehicle location information, if available, only provided to Police. Vehicle recovery not guaranteed.
- 5 ACN – Only activates if vehicle's DCM detects airbag deployment or impact sensor notification.
- 6 SOS – Only operates if vehicle's SOS button is pressed and vehicle ignition is on.
- 7 Requires compatible device, USB connection, mobile data, network reception and GPS signal. Mobile usage at user's cost. Apps subject to change. For details see [toyota.com.au/connected](https://toyota.com.au/connected)
