

AGROFARM G SERIES

A step up in power and comfort, the two Agrofarm G Series models are available as cabin or ROPS versions and produce 96 hp and 110 hp respectively. Designed for our variable Australian conditions, these superbly designed tractors are renowned their heavy-duty frame and manoeuvrability, a distinct advantage with a loader fitted.

Built for multi-purpose farming, they feature a high capacity hydraulic pump, 4 wheel independent wet disc brakes and choice of two transmission types, wet clutch Powershuttle or dry clutch synchro shuttle. Visibility is outstanding, likewise the torque developed by the Deutz-Fahr SDF 1000 Series 4 cylinder turbo intercooled engine. The Agrofarm G Series represents real value for money.
