

THE NEW RINGFEDER GENERATION

IMPROVING PERFORMANCE – ADDING VALUE

The new generation high-quality Ringfeder trailer couplings are designed for improved operation and reduced maintenance costs, while providing unsurpassed reliability and extended product life.

 **Transpecs**

REDESIGNED TO PERFORM

NEW COMPACT DESIGN

The compact size makes fitting easier for bodybuilders.

NEW SAFETY DEVICE

The new design makes it even more robust better protected and is easier to maintain and replace.

NEW REINFORCED RETURN SPRING FOR EASIER OPENING

NEW ERGONOMICS

The redesigned hand lever makes manual models easier to operate.

NEW FLUSH-MOUNTED SCREWS UNDERNEATH TO AVOID DAMAGE

NEW GUIDING FUNNEL

The new funnel design has a reinforced lip and is quicker and easier to replace.

AND MORE ...

LOCKING INDICATOR – VISIBLE FROM A DISTANCE

With a coupling sensor module (CSM) locking mode is shown by a built-in LED light indicator, and the signal (red / green) is clearly visible also in the dark. By connecting a passive fibre optic cable to the indicator, the signal can be displayed on any location – without the need for a base cab module (BCM) or separate wiring to the cab.

LOCKING INDICATOR IN CAB

With a base cab module (BCM) wired to an indicator panel, locking mode (red/green) is conveniently displayed in the cab. Alternatively, the BCM could be connected directly to the truck instrument cluster to enable locking indication in the vehicle's dashboard display.

JUST TURN TO OPEN!

With a valve box, the opening of the coupling is fast, safe and hassle-free for the driver.

AVOID JACKKNIFING – AVOID COSTS

A COMPLETE SYSTEM

THE RINGFEDER TRAILER COUPLINGS ARE PARTS OF A COMPLETE SYSTEM FOR TRAILER COUPLING AND REAR UNDERRUN PROTECTION. ALL PRODUCTS ARE CERTIFIED AND COMPLIANT WITH CURRENT LEGISLATIONS.

EXCELLENT SERVICEABILITY AND AVAILABILITY

Ringfeder trailer couplings require the least possible maintenance. Should an incident occur they are easily repaired and parts are available virtually worldwide.

YOUR SYSTEM PARTNER

With the complete range of certified compatible components together with full service and support, Ringfeder is your knowledgeable system partner in the field of connecting truck and trailer.
