HYDRAULIC COMPONENTS®

HYDRAULIC COMPONENTS FOR TIPPER TRUCKS, TANKERS, ELEVATING ROOF & HOOK LOADERS, COMPACTORS, OVERHEAD PLATFORMS, RECOVERY VEHICLES, SNOW PLOUGHS, CRANES & INDUSTRIAL APPLICATIONS

# ENGAGE THE POWER OF THE WORLD

HYDRAULIC COMPONENTS FOR

**AN INSTANT, AN ACTION, AND POWER  
BECOMES FORCE FOR YOU TO WORK IN  
COMPLETE SAFETY, THANKS TO OMFB'S  
HERITAGE OF EXPERIENCE & PERFORMANCE.**

OMFB Hydraulic Components of Italy was founded in the 1950's by the three Bianchi brothers -Nicola, Umberto and Alessandro.

Their entrepreneurial spirit has established OMFB as highly-reliable innovators, precision manufacturers, and trusted and experienced leaders in the global marketplace.

Initially offering a range of mechanical and hydraulic components for trucks, OMFB has grown to be a world-leader in the supply of hydraulic components across many industrial sectors.

Continual growth now sees OMFB manufacturing an extensive range of products to meet the needs of the complex chain of power transmissions in action today ... as well as innovative developments for the future.

The results can be seen in the wide and growing range of integrated and inter-connected products, fruit of well-defined research aimed at satisfying the complex needs of industrial vehicles throughout the world.

OMFB's long experience in the field of 'problem solving' provides exceptional value to the industry: a heritage able to guarantee qualified technical support for direct solutions to real problems, in a minimum amount of time.

Although founded many years ago, the story of OMFB confirms, in the best sense of Italian industrial tradition, the strategic choices made in the past: embrace technological developments, understand the industry's needs and wants, impart and share knowledge.

The powerful heritage of OMFB sees it universally respected by partners, manufacturers and operators throughout the world.

Gough Transpecs is proud to be a part of this heritage as New Zealand representative for OMFB over many years.

**700+**  
PTO MODELS AVAILABLE  
COVERING A WIDE RANGE  
OF OE VEHICLES

**450+**  
GEAR PUMP TYPES  
AVAILABLE WITH MOST  
UNI-ISO-ASAE FLANGES

**145**  
PISTON PUMP TYPES  
AVAILABLE WITH STRAIGHT  
& BENT AXIS

**130**  
HYDRAULIC VALVE  
MODELS AVAILABLE

**600+**  
POWER PACK TYPES  
AVAILABLE WITH DIRECT &  
ALTERNATING CURRENT

**130**  
CONTROL MODELS TO OPERATE  
PTOS/HYDRAULIC VALVES

**190**  
HYDRAULIC HAND PUMP  
MODELS AVAILABLE

**SLICK SHIFT PTO's for  
ALLISON transmission  
series MD-HD.**

# D'S HYDRAULIC POWERHOUSE

TIPPER TRUCKS, TANKERS, ELEVATING ROOF & HOOK LOADERS, COMPACTORS, OVERHEAD PLATFORMS, RECOVERY VEHICLES, SNOW PLOUGHS, CRANES & INDUSTRIAL APPLICATIONS

**OMFB**  
HYDRAULIC COMPONENTS

PTO with electromagnetic shift MAG-TRONIC system.

PTO pneumatic control with AIR-PACK compressor.

KIPTRONIC EV02 management system for tipper.

3-Position Tipping Valves from 45 to 250 lpm.

Diverter and End-Of-Stroke Valves.

Self-Balanced gear pumps type NPH.

Bent Axis Piston Pumps Series HDS and MDS.

Pneumatic switches and cab controls.

Single acting underbody cylinders.

S.A. power pack complete.

45° and 90° delivery and suction fitting kits series GOLD.

Wet kits for Heavy Duty trucks.

Universal coaxial back PTO type POWER-LIGHT.

Universal PTO's series POWERFULL and POWERTRUCK - Heavy Duty

Three and four bolt SLICK SHIFT Clutch Units.
